

**Editorial**

- 1055 **Publishing in the biomedical sciences: if it's broken, fix it!** Jordan W. Raff

**Research Article**

- 1058 **Adhesive and mechanical regulation of mesenchymal stem cell differentiation in human bone marrow and periosteum-derived progenitor cells.** Jeroen Eyckmans, Grace L. Lin and Christopher S. Chen
- 1069 **Cortactin depletion results in short tubulobulbar complexes and spermiation failure in rat testes.** J'Nelle S. Young, Marc de Asis, Julian Guttman and A. Wayne Vogl
- 1078 **A trade-off between natural and acquired antibody production in a reptile: implications for long-term resistance to disease.** Franziska C. Sandmeier, C. Richard Tracy, Sally DuPré and Kenneth Hunter
- 1083 **Lhx1 in the proximal region of the optic vesicle permits neural retina development in the chicken.** Takumi Kawaue, Mayumi Okamoto, Akane Matsuyo, Junji Inoue, Yuhki Ueda, Sayuri Tomonari, Sumihare Noji and Hideyo Ohuchi
- 1094 **Motor planning modulates sensory-motor control of collision avoidance behavior in the bullfrog, *Rana catesbeiana*.** Hideki Nakagawa and Yuuya Nishida
- 1102 **Joint interpretation of AER/FGF and ZPA/SHH over time and space underlies *hairy2* expression in the chick limb.** Caroline J. Sheeba, Raquel P. Andrade and Isabel Palmeirim
- 1111 **Rules of engagement: centrosome–nuclear connections in a closed mitotic system.** Meredith Leo, Diana Santino, Irina Tikhonenko, Valentin Magidson, Alexey Khodjakov and Michael P. Koonce
- 1118 **Influences of lamin A levels on induction of pluripotent stem cells.** Bingfeng Zuo, Jiao Yang, Fang Wang, Lei Wang, Yu Yin, Jiameng Dan, Na Liu and Lin Liu
- 1128 **Vinculin-dependent Cadherin mechanosensing regulates efficient epithelial barrier formation.** Floor Twiss, Quint le Duc, Suzanne van der Horst, Hamid Tabdili, Gerard van der Krogt, Ning Wang, Holger Rehmann, Stephan Huveneers, Deborah E. Leckband and Johan de Rooij
- 1141 **Applicability of the doubly labelled water method to the rhinoceros auklet, *Cerorhinca monocerata*.** Masaki Shirai, Motohiro Ito, Ken Yoda and Yasuaki Niizuma
- 1146 **Chicken primordial germ cells use the anterior vitelline veins to enter the embryonic circulation.** Ana de Melo Bernardo, Kaylee Sprenkels, Gabriela Rodrigues, Toshiaki Noce and Susana M. Chuva de Sousa Lopes
- 1153 **The interrelationship between APC/C and Plk1 activities in centriole disengagement.** Toshiyuki Hatano and Greenfield Sluder
- 1161 **A role for Rap2 in recycling the extended conformation of LFA-1 during T cell migration.** Paula Stanley, Sharon A. Tooze and Nancy Hogg
-
