Inactivation of aPKC λ results in the loss of adherens junctions in neuroepithelial cells without affecting neurogenesis in mouse neocortex

Fumiyasu Imai, Syu-ichi Hirai, Kazunori Akimoto, Hiromichi Koyama, Takaki Miyata, Masaharu Ogawa, Shigeru Noguchi, Toshikuni Sasaoka, Tetsuo Noda and Ohno Shigeo *Development* **133**, 1735-1744.

The ePress version of this article published on 29 March 2006 contains an error.

Ohno Shigeo should have been written Shigeo Ohno.

Both the published print and final online versions of the article are correct.

The authors apologise to readers for this mistake.
