

Table S1. No *Tie2-tTA;TRE-int3* mutants were born

Genotype	Number* (%)
Wild type	26 (29.9)
<i>Tie2-tTA</i>	37 (42.5)
<i>TRE-int3</i>	24 (27.6)
<i>Tie2-tTA;TRE-int3</i>	0 (0)

*A total of 87 newborn pups from 13 litters were analyzed.

Of 87 pups from 13 litters, there were no surviving *Tie2-tTA;TRE-int3* pups, suggesting that *int3* expression in endothelial cells leads to embryonic lethality.
