Table S3. EC counting data

## A. Notch4 gain-of-function

Total EC \#

| ss | control | int3 mut |
| :--- | ---: | ---: |
| pair1 | 615 | 678 |
| pair2 | 666 | 633 |
| pair3 | 747 | 798 |
| pair4 | 625 | 642 |
| pair5 | 675 | 583 |
|  |  |  |
| mean* | 665.6 | 666.8 |
| SD* | 52.3 | 80.8 |

Average EC \# in each section (10 um frozen section)

|  | control (\# of sections) | int3 mut (\# of sections) |
| :--- | :---: | :---: |
|  | $51.3(12)$ | $56.5(12)$ |
|  | $74.0(9)$ | $70.3(9)$ |
|  | $93.4(8)$ | $99.8(8)$ |
|  | $69.4(9)$ | $71.3(9)$ |
|  | $56.3(12)$ | $48.8(12)$ |
|  |  |  |
| mean | 68.9 | 69.3 |
| SD | 16.5 | 19.5 |

## B. Notch1 loss-of-function

Total EC \#

|  | control | N1KO |
| :--- | ---: | ---: |
| pair1 | 245 | 223 |
| pair2 | 82 | 91 |
| pair3 | 578 | 568 |
| pair4 | 431 | 503 |
|  |  |  |
| mean* | 334.0 | 346.3 |
| SD* | 216.3 | 226.6 |

Average EC \# in each section (10 um frozen section)

|  | control (\# of sections) | N1KO (\# of sections) |
| :--- | :---: | :---: |
|  | $37.2(6)$ | $40.8(6)$ |
|  | $35.5(2)$ | $23.5(2)$ |
|  | $56.8(10)$ | $57.8(10)$ |
|  | $62.5(9)$ | $53.9(9)$ |
|  |  |  |
| mean | 48.0 | 44.0 |
| SD | 13.7 | 15.5 |

## C. Efnb2 loss-of-function

## Total EC \#

|  | control | ephrin B2KO |
| :--- | ---: | ---: |
| pair1 | 650 | 516 |
| pair2 | 684 | 516 |
| pair3 | 788 | 682 |
|  |  |  |
| mean* | 707.3 | 571.3 |
| SD* | 71.9 | 95.8 |

Average EC \# in each section (5 um paraffin section)

|  | control (\# of sections) | ephrin B2KO (\# of sections) |
| :--- | :---: | :---: |
|  | $50.0(13)$ | $39.7(13)$ |
|  | $52.6(13)$ | $39.7(13)$ |
|  | $49.1(13)$ | $52.5(13)$ |
|  |  |  |
| mean | 50.6 | 43.9 |
| SD | 1.8 | 7.4 |

*Calculated mean and SD cannot be applied as each pair analyzed has a different number of sections. Calculations must be limited to comparisons between the mutant and control within the pair only.
