

Table S2. Numbers of early donor chimaeras and early donor progeny treated with FGF4 or FGF-signalling pathway inhibitors (2i)

Type of treatment of early donor chimaeras	Total number of GFP-N donor chimaeras	Total number of GFP-H donor chimaeras	Total number of GFP-N donor progeny	Total number of GFP-H donor progeny
FGF	20	1	91	5
2i	17	8	69	37
None (control)	22	18	105	76
