The extracellular loops of Smoothened play a regulatory role in control of Hedgehog pathway activation

Candace E. Carroll, Suresh Marada, Daniel P. Stewart, J. Xiaoxi Ouyang and Stacey K. Ogden

There was an error published in *Development* 139, 612-621.

Residue C478 is predicted to localise to the central portion of TM6 and not to its extracellular face as originally illustrated in Supplementary material Fig. S5A. The corrected Fig. S5A is shown below.
