DE POMERAI, D. I. and GALI, M. A. H. Influence of serum factors on the prevalence of 'normal' and 'foreign' differentiation pathways in cultures of chick embryo neuroretinal cells. *J. Embryol. exp. Morph.* Vol. 62, 291–308.

The authors wish to make the following correction:

'In Fig. 6 on page 300, slot 7 shows soluble proteins from 36-day cultures in F medium, while slot 8 shows soluble proteins from 36-day cultures in Hg medium.'
