

Subject Index

- Acetylcholinesterase (AChE)**
 activity distribution pattern in chick limb buds: FALUGI & RAINERI 89
- Ambystoma mexicanum**
 gastrula
 normal fates and states of specification of different regions: CLEINE & SLACK 247
 hindlimbs
 regeneration—effect of discontinuities in anterior—posterior axis: HOLDER & WEEKES 283
- Amphibia**
 embryo
 cell surface glycoconjugates and neural induction: GUALANDRIS, ROUGE & DUPRAT 39
 in vitro differentiation of neuronal precursor cells: DUPRAT, KAN, FOULQUIER & WEBER 71
- Antigens**
 reactivity of mouse teratocarcinoma-derived stem cells: DAMJANOV, DAMJANOV & ANDREWS 125
- Apical ectodermal ridge (AER)**
 effect on cell division quiescent mouse 3T3 cells in cocultures: BELL & McMACHLAN 219
- Ascidia**
 embryo
 formation of notochord: MIYAMOTO & CROWTHER 1
- Axolotl**
 gastrula
 normal fates and states of specification of different regions: CLEINE & SLACK 247
 hindlimbs
 regeneration—effect of discontinuities in anterior—posterior axis: HOLDER & WEEKES 283
- Axon guidance**
 for peripheral nerve in embryonic leech: KUWADA 155
- Blastocyst**
 mouse
 developmental variability in expanding blastocysts and their ICMs: CHISHOLM, JOHNSON, WARREN, FLEMING & PICKERING 311
- reconstitution technique to determine origin of tissues: ROSSANT & CROY 177
- Cathepsin**
 role in proteolytic function of rat embryonic yolk sac: FREEMAN & BROWN 271
- Cautery**
 induced colour patterns in *Precis coenia*: NIJHOUT 191
- Cell cycle**
 developmental variability in expanding mouse blastocysts: CHISHOLM, JOHNSON, WARREN, FLEMING & PICKERING 311
- Cell determination**
 in amphibian embryo: GUALANDRIS, ROUGE & DUPRAT 39
- Cell division**
 stimulation in mouse 3T3 cells by coculture with chick limb: BELL & McMACHLAN 219
- Cell lineage label**
 to determine states of specification of regions of axolotl: CLEINE & SLACK 247
- Cell rearrangements**
 during formation of ascidian notochord: MIYAMOTO & CROWTHER 1
- Cell shape**
 changes during ascidian notochord formation: MIYAMOTO & CROWTHER 1
- Cell surface**
 glycoconjugates and neural induction in amphibia: GUALANDRIS, ROUGE & DUPRAT 39
- Cell type**
 regulation—influence of cyclic AMP: WEIJER & DURSTON 19
- Cellular interaction**
 in early developing chick limbs: FALUGI & RAINERI 89
- Chemical messengers**
 pattern in early developing chick limbs: FALUGI & RAINERI 89
- Chick**
 cornea
 acellular stroma inhibits melanogenesis of neural-crest-derived cells: CAMPBELL & BARD 143
 embryo
 distribution of polarizing zone in the leg-bud: HINCHLIFFE & SANSOM 169

- selective innervation of dermis and skin:
VERNA 53
- limb
coculture with mouse 3T3 cells: BELL &
MCMACHLAN 219
paths taken by sensory nerves in aneural
chick wing buds: SWANSON 109
- limb bud
cholinergic system – distribution pattern
of enzymes: FALUGI & RAINERI 89
- Cholinergic system**
activity distribution pattern of enzymes
in chick limb buds: FALUGI & RAINERI
89
- Ciona intestinalis*
embryo
formation of notochord: MIYAMOTO &
CROWTHER 1
- Colour**
patterns induced in *Precis coenia* by cautery:
NIJHOUT 191
- Commitment**
of mouse blastocyst cells – developmental
variability: CHISHOLM, JOHNSON, WARREN,
FLEMING & PICKERING 311
- Cornea**
chick
development – inhibition of melano-
genesis by acellular stroma: CAMPBELL &
BARD 143
- Culture**
of rat embryos – effects of cathepsin in-
hibitors on development: FREEMAN &
BROWN 271
- Cyclic AMP**
and cell type regulation in *Dictyostelium*
discoideum: WEIJER & DURSTON 19
- Denervation**
effect on sensory nerve fibre patterns: SWAN-
SON 109
- Dictyostelium discoideum*
cell type regulation and cyclic AMP: WEIJER
& DURSTON 19
- Discontinuities**
effect on regeneration of axolotl hindlimbs:
HOLDER & WEEKES 283
- DNA synthesis**
in cocultures of chick embryonic limb and
mouse 3T3 cells: BELL & MCMACHLAN
219
- Dorsal root ganglia**
selective innervation of chick dermis and
epidermis: VERNA 53
- Embryonic lineages**
derived from mouse trophectodermal car-
cinoma stem cells: DAMJANOV, DAMJANOV &
ANDREWS 125
- Extracellular matrix**
induction of neural crest cells to form
fibroblasts: CAMPBELL & BARD 143
- Fate map**
of different regions in the axolotl gastrula:
CLEINE & SLACK 247
- Feedback model**
for effect of cyclic AMP on cell type regula-
tion: WEIJER & DURSTON 19
- Gastrula**
axolotl
normal fates and states of specification of
different regions: CLEINE & SLACK 247
- Genetic markers**
to identify origin of tissues in mouse pla-
centa: ROSSANT & CROY 177
- Glycoconjugates**
cell surface and neural induction in am-
phibia: GUALANDRIS, ROUGE & DUPRAT 39
- Glycoprotein**
synthesis in different regions of axolotl
gastrula: CLEINE & SLACK 247
synthesis, storage and secretion of trans-
ferrin in mouse tissues: MEEK & ADAM-
SON 205
- Growth cone**
of leech dorsal peripheral neuron: KUWADA
155
- Haementaria ghilianii*
(See Leech)
- Hydrolysis products**
of cyclic AMP – influence on cell type regula-
tion: WEIJER & DURSTON 19
- Immunocytochemical study**
in vitro differentiation of neuronal precursor
cells: DUPRAT, KAN, FOULQUIER & WEBER
71
- Inner cell mass (ICM)**
mouse
developmental variability and in expand-
ing blastocysts: CHISHOLM, JOHNSON,
WARREN, FLEMING & PICKERING 311
- Innervation**
of chick dermis and epidermis: VERNA 53
- Insect**
synaptogenesis between sensory neurones
and giant interneurones: BLAGBURN,
BEADLE & SATTELLE 227

- Interneurones**
giant in the cockroach – synaptogenesis:
BLAGBURN, BEADLE & SATTELLE 227
- Lectins**
target cell surface glycoconjugates in amphibia: GUALANDRIS, ROUGE & DUPRAT 39
- Leech**
embryo
pioneering and pathfinding by an identified neuron: KUWADA 155
- Legbud**
distribution of ZPA in the legbud of chick embryo: HINCHLIFFE & SANSOM 169
- Lepidoptera**
cautery-induced colour patterns in *Precis coenia*: NIJHOUT 191
- Limb bud**
chick
cholinergic system—distribution pattern of enzymes: FALUGI & RAINERI 89
- Limb development**
distribution of ZPA in the legbud of chick embryo: HINCHLIFFE & SANSOM 169
- Liver**
mouse
synthesis, storage and secretion of transferrin: MEEK & ADAMSON 205
- Markers**
used to study differentiation of amphibian neuronal cells: DUPRAT, KAN, FOULQUIER & WEBER 71
- Melanogenesis**
of neural-crest-derived cells inhibited in chick cornea cultures: CAMPBELL & BARD 143
- Molecular embryology**
in vitro differentiation of neuronal precursor cells: DUPRAT, KAN, FOULQUIER & WEBER 71
- Mouse**
adult
synthesis, storage and secretion of transferrin: MEEK & ADAMSON 205
blastocyst
and ICMs – developmental variability: CHISHOLM, JOHNSON, WARREN, FLEMING & PICKERING 311
embryo
genetical identification of tissues within placenta: ROSSANT & CROY 177
synthesis, storage and secretion of transferrin: MEEK & ADAMSON 205
- 3T3 cells
coculture with embryonic chick limb tissue: BELL & McMACHLAN 219
trophoblastic carcinoma
differentiation into trophoblastic and yolk sac elements: DAMJANOV, DAMJANOV & ANDREWS 125
- Nerve**
patterns
in aneural chick wing buds: SWANSON 109
- Neural crest**
differentiation in cultured chick cornea: CAMPBELL & BARD 143
- Neural induction**
and target cell surface glycoconjugates in amphibia: GUALANDRIS, ROUGE & DUPRAT 39
- Neuronal development**
in leech embryo: KUWADA 155
- Neuronal differentiation**
in amphibian embryo: DUPRAT, KAN, FOULQUIER & WEBER 71
- Neurones**
identified in cockroach – synaptogenesis: BLAGBURN, BEADLE & SATTELLE 227
- Neurotransmitters**
accumulation and uptake in amphibian embryos: DUPRAT, KAN, FOULQUIER & WEBER 71
- Notochord**
formation in living ascidian embryos: MIYAMOTO & CROWTHER 1
- Pathfinding**
by a neuron in embryonic leech: KUWADA 155
- Pattern formation**
cautery-induced colour patterns in *Precis coenia*: NIJHOUT 191
- Pattern regulation**
in regeneration of axolotl hindlimbs with discontinuities: HOLDER & WEEKES 283
- Periplaneta americana***
between cockroach sensory neurones and giant interneurones: BLAGBURN, BEADLE & SATTELLE 227
- Placenta**
genetic identification of tissue of origin of cellular populations: ROSSANT & CROY 177
- Precis coenia***
cautery-induced colour patterns: NIJHOUT 191

Proteolysis

in rat embryonic yolk sac—role of cathepsins:
FREEMAN & BROWN 271

Pseudocholinesterase (BuChE)

activity distribution pattern in chick limb
buds: FALUGI & RAINERI 89

Rat

embryo
effects of cathepsin inhibitors on develop-
ment *in vitro*: FREEMAN & BROWN 271

Reconstituted blastocysts

to determine origin of tissues in mouse pla-
centa: ROSSANT & CROY 177

Regeneration

of axolotl hindlimbs with discontinuities in
anteroposterior axis: HOLDER & WEEKES
283

Regulation

of cell type—influence of cyclic AMP: WEIJER
& DURSTON 19

Sensory innervation

of chick dermis and epidermis: VERNA 53

Sensory nerves

paths taken in aneural chick wing buds:
SWANSON 109

Skin

selective innervation of chick dermis and
epidermis: VERNA 53

Specification

states of indifferent regions in the axolotl
gastrula: CLEINE & SLACK 247

Synaptogenesis

between cockroach sensory neurones and
giant interneurones: BLAGBURN, BEADLE &
SATTELLE 227

Teratocarcinoma

differentiation of stem cells into trophoblas-
tic elements: DAMJANOV, DAMJANOV &
ANDREWS 125

Teratogenesis

effects of leupeptin and pepstatin on rat em-
bryos in culture: FREEMAN & BROWN 271

Transfer

embryo
used to identify origin of cell populations
in mouse placenta: ROSSANT & CROY
177

Transferrin

synthesis, storage and secretion in mouse
tissues: MEEK & ADAMSON 205

Trophectoderm

mouse
developmental variability in expanding
blastocysts: CHISHOLM, JOHNSON,
WARREN, FLEMING & PICKERING 311

Trophoblast

differentiation from trophoctodermal car-
cinoma stem cells: DAMJANOV, DAMJANOV &
ANDREWS 125
genetic identification of tissues: ROSSANT &
CROY 177

Vacuoles

intracellular—during formation of ascidian
notochord: MIYAMOTO & CROWTHER 1

Video time lapse

to study ascidian notochord formation:
MIYAMOTO & CROWTHER 1

Yolk sac

mouse
differentiation from trophoctodermal car-
cinoma stem cells: DAMJANOV, DAM-
JANOV & ANDREWS 125
synthesis, storage and secretion of trans-
ferrin: MEEK & ADAMSON 205
rat
role of cathepsins in proteolytic function:
FREEMAN & BROWN 271

Zone of polarizing activity (ZPA)

effect on cell division quiescent mouse 3T3
cells in cocultures: BELL & McMACHLAN
219
distribution in the legbud of chick embryo:
HINCHLIFFE & SANSOM 169
