

Subject Index

- Adenosine triphosphate (ATP)**
innervation of muscles in normal,
paralysed and aneural embryos: SOHAL &
SICKLES 79
- Albino**
mutation
genetic activity in Cattanaach's insertion:
DEOL, TRUSLOVE & McLAREN 295
- Allophenic**
mice
vertebral shape – clonal model
reinvestigated with Fourier analysis:
O'HIGGINS, JOHNSON & McANDREW 171
- Alveolar cells**
in regenerated rat mammary glands:
ORMEROD & RUDLAND 229
- Ambystoma mexicanum***
mutants
retina and lens development: CUNY &
MALACINSKI 151
- Antigen**
expression in *Dictyostelium* monolayer
cultures: DOMINOV & TOWN 131
- Apteronotus albifrons***
regeneration of spinal cord: ANDERSON,
CHOY & WAXMAN 1
- Avian**
muscle
innervation in normal, paralysed and
aneural embryos: SOHAL & SICKLES 79
- Axolotl**
mutants
retina and lens development: CUNY &
MALACINSKI 151
- Bacterial collagenase**
effect on branching of submandibular
glands: NAKANISHI, SUGIURA, KISHI &
HAYAKAWA 65
- Casein**
production in regenerated rat mammary
glands: ORMEROD & RUDLAND 229
- Cattanaach's insertion**
genetic activity at the albino locus: DEOL,
TRUSLOVE & McLAREN 295
- Cell**
–matrix interaction in cultured rabbit
dental cells: LESOT, SMITH, MEYER, STAUBLI
& RUCH 195
- Cell differentiation**
in monolayer cultures of *Dictyostelium*:
DOMINOV & TOWN 131
- Cell migration**
cinemicrographic study in mouse embryo:
NAKATSUJI, SNOW & WYLIE 99
- Cell patterning**
during mouse secondary palate closure:
BRINKLEY & BOOKSTEIN 111
- Ciliary band**
formation in the doliolaria larva of
Florometra: LACALLI & WEST 303
- Cinemicrography**
of cell movement in mouse embryo:
NAKATSUJI, SNOW & WYLIE 99
- Cleft formation**
role in branching of mouse embryonic
submandibular glands: NAKANISHI,
SUGIURA, KISHI & HAYAKAWA 65
- Clonal model**
of vertebral column development:
O'HIGGINS, JOHNSON & McANDREW 171
- Collagen**
fibrils localization during branching of
submandibular glands: NAKANISHI,
SUGIURA, KISHI & HAYAKAWA 65
- Collagenase**
inhibitor – effect on branching of
submandibular glands: NAKANISHI,
SUGIURA, KISHI & HAYAKAWA 65
- Computer**
analysis of vertebral shape using Fourier
analysis: O'HIGGINS, JOHNSON &
McANDREW 171
- Cortical tractor**
for epithelial folding and neurulation:
JACOBSON, OSTER, ODELL & CHENG 19
- Dental papilla**
cell–matrix interactions in cultured rabbit
dental cells: LESOT, SMITH, MEYER, STAUBLI
& RUCH 195
- Dentin**
cell–matrix interactions in cultured rabbit
dental cells: LESOT, SMITH, MEYER, STAUBLI
& RUCH 195
- Dictyostelium discoideum***
regulation of stalk and spore antigen
expression: DOMINOV & TOWN 131
- Doliolaria**
larva of *Florometra* – ciliary band
formation: LACALLI & WEST 303

Ducts

- mammary
- regeneration of mammary glands *in vivo*:
ORMEROD & RUDLAND 229

Early somite

- stage mouse embryos – histogenetic
potential of neural plate: CHAN &
TAM 183

Efferent tubules

- postnatal maturation in the rat: FRANCAVILLA
AND OTHERS 51

Electric field

- effects on fusion rate of 2-cell rabbit
embryos: OZIL & MODLINSKI 211

Enamel organ

- cell–matrix interactions in cultured rabbit
dental cells: LESOT, SMITH, MEYER, STAUBLI
& RUCH 195

Ependyma

- selforganization in regenerating teleost
spinal cord: ANDERSON, CHOY &
WAXMAN 1

Epididymis

- postnatal maturation of efferent tubules in
the rat: FRANCAVILLA AND OTHERS 51

Epithelial branching

- of mouse submandibular glands: NAKANISHI,
SUGIURA, KISHI & HAYAKAWA 65

Epithelial cells

- in regenerated rat mammary glands:
ORMEROD & RUDLAND 229

Epithelial folding

- cortical tractor model and neurulation:
JACOBSON, OSTER, ODELL & CHENG 19

Epithelial pattern

- formation in the doliolaria larva of
Florometra: LACALI & WEST 303

Eye

- development stages in axolotl: CUNY &
MALACINSKI 151

Eyeless (*e*)

- mutant in axolotl – retina and lens
development: CUNY & MALACINSKI 151

Fibre

- muscle
- types in normal, paralysed and aneural
avian embryos: SOHAL & SICKLES 79

Fibrillar structures

- role in branching of mouse embryonic
submandibular glands: NAKANISHI,
SUGIURA, KISHI & HAYAKAWA 65

Florometra serratissima

- ciliary band formation in the doliolaria
larva: LACALI & WEST 303

Fourier

- analysis of vertebral shape in chimaeric
mice: O'HIGGINS, JOHNSON &
MCANDREW 171

Fusion

- of 2-cell rabbit embryos – effects of electric
field: OZIL & MODLINSKI 211

Gastrulation

- mouse
- cinemicrographic study of cell
movement: NAKATSUJI, SNOW &
WYLIE 99

Genetic activity

- at albino locus in Cattanach's insertion in
mouse: DEOL, TRUSLOVE & McLAREN 295

Genital duct

- postnatal maturation of efferent tubules in
the rat: FRANCAVILLA AND OTHERS 51

Heat shock

- disruption of segmentation in locust
embryo: MEE & FRENCH 245, 267

Immunocytochemistry

- of regenerated rat mammary glands:
ORMEROD & RUDLAND 229

Innervation

- of muscle in normal, paralysed and aneural
avian embryos: SOHAL & SICKLES 79

Insect

- embryo
- disruption of segmentation by heat
shock: MEE & FRENCH 245, 267

Interaction

- between cell and matrix in cultured rabbit
dental cells: LESOT, SMITH, MEYER, STAUBLI
& RUCH 195

Lens

- and retina development in eyeless axolotl
mutants: CUNY & MALACINSKI 151

Location

- of segmental abnormalities in locust
embryo: MEE & FRENCH 245

Locust (See *Schistocerca gregaria*)**Mammary glands**

- regeneration *in vivo* from isolated ducts:
ORMEROD & RUDLAND 229

Mesenchymal cells

- distribution during mouse secondary palate
closure: BRINKLEY & BOOKSTEIN 111

Mesenchymal ridges

- role in branching of mouse embryonic
submandibular glands: NAKANISHI,
SUGIURA, KISHI & HAYAKAWA 65

- Microphthalmic (*mi*)**
mutant in axolotl – retina and lens development: CUNY & MALACINSKI 151
- Model**
cortical tractor for epithelial folding: JACOBSON, OSTER, ODELL & CHENG 19
- Models**
for specification of somite pattern in amphibians: MEE & FRENCH 245
- Monolayer**
culture of *Dictyostelium*: DOMINOV & TOWN 131
- Mosaics**
gene activity at albino locus in Cattanach's insertion: DEOL, TRUSLOVE & McLAREN 295
- Mouse**
Cattanach's insertion
genetic activity at the albino locus: DEOL, TRUSLOVE & McLAREN 295
embryo
cinemicrographic study of cell movement: NAKATSUJI, SNOW & WYLIE 99
histogenetic potential of neural plate from early-somite stage: CHAN & TAM 183
submandibular glands – SEM observation during initial branching: NAKANISHI, SUGIURA, KISHI & HAYAKAWA 65
secondary palate
mesenchymal cell distribution during closure: BRINKLEY & BOOKSTEIN 111
vertebral shape
clonal theory – reinvestigation using Fourier analysis: O'HIGGINS, JOHNSON & McANDREW 171
- Muscle**
fibre types in normal, paralysed and aneural avian embryos: SOHAL & SICKLES 79
- Mutant**
eyeless (*e*)
axolotl retina and lens development: CUNY & MALACINSKI 151
microphthalmic (*mi*)
axolotl retina and lens development: CUNY & MALACINSKI 151
renal insufficiency (*r*)
axolotl retina and lens development: CUNY & MALACINSKI 151
- Mutation**
gene activity at albino locus in Cattanach's insertion: DEOL, TRUSLOVE & McLAREN 295
- Neural crest**
histogenetic potential of neural plate from mouse embryos: CHAN & TAM 183
- Neural plate**
histogenetic potential of cells from mouse embryos: CHAN & TAM 183
- Neurulation**
and cortical tractor model for epithelial folding: JACOBSON, OSTER, ODELL & CHENG 19
- Palate closure**
in mouse – distribution of mesenchymal cells: BRINKLEY & BOOKSTEIN 111
- pH**
regulation of antigen expression in monolayers of *Dictyostelium*: DOMINOV & TOWN 131
- Phenotypic regulation**
in monolayer cultures of *Dictyostelium*: DOMINOV & TOWN 131
- Pigmentation**
gene activity at albino locus in Cattanach's insertion: DEOL, TRUSLOVE & McLAREN 295
- Polarization**
cell–matrix interactions in cultured rabbit dental cells: LESOT, SMITH, MEYER, STAUBLI & RUCH 195
- Protein**
from dentin – influence on cell–matrix interactions: LESOT, SMITH, MEYER, STAUBLI & RUCH 195
- Rabbit**
dental cells
cell–matrix interactions: LESOT, SMITH, MEYER, STAUBLI & RUCH 195
embryo
effects of electric field on fusion rates: OZIL & MODLINSKI 211
- Rat**
mammary gland
regeneration *in vivo*: ORMEROD & RUDLAND 229
postnatal
maturation of efferent tubules: FRANCAVILLA AND OTHERS 51
- Reconstructions**
of sections of teleost regenerating spinal cord: ANDERSON, CHOY & WAXMAN 1
- Regeneration**
of rat mammary glands *in vivo*: ORMEROD & RUDLAND 229
of teleost spinal cord: ANDERSON, CHOY & WAXMAN 1

Renal insufficiency (*r*)

- mutant in axolotl – retina and lens
- development: CUNY & MALACINSKI 151

Retina

- and lens development in eyeless axolotl
- mutants: CUNY & MALACINSKI 151

Scanning electron microscopy

- of ciliary band formation in doliolaria larva
- of *Florometra*: LACALLI & WEST 303
- of mouse embryonic submandibular glands: NAKANISHI, SUGIURA, KISHI & HAYAKAWA 65

Schistocerca gregaria

- embryo
- disruption of segmentation by heat shock: MEE & FRENCH 245, 267

Secondary palate

- cell distribution during closure in mouse: BRINKLEY & BOOKSTEIN 111

Segmentation

- in *Schistocerca* – disruption by heat shock: MEE & FRENCH 245, 267

Selforganization

- of ependyma in regenerating teleost spinal cord: ANDERSON, CHOY & WAXMAN 1

Serial sections

- of teleost regenerating spinal cord: ANDERSON, CHOY & WAXMAN 1

Shape

- clonal theory and vertebral shape: O'HIGGINS, JOHNSON & McANDREW 171

Spinal cord

- regeneration
- selforganization in teleosts: ANDERSON, CHOY & WAXMAN 1

Spore

- antigen expression in *Dictyostelium*: DOMINOV & TOWN 131

Stalk

- antigen expression in *Dictyostelium*: DOMINOV & TOWN 131

Structure

- of segmental abnormalities in locust embryo: MEE & FRENCH 267

Submandibular glands

- of mouse – SEM observation during initial branching: NAKANISHI, SUGIURA, KISHI & HAYAKAWA 65

Teleost

- regeneration of spinal cord: ANDERSON, CHOY & WAXMAN 1

Testicular fluid

- transport in the rat: FRANCAVILLA AND OTHERS 51

Testis

- postnatal maturation of efferent tubules in the rat: FRANCAVILLA AND OTHERS 51

Tetraploid

- rabbit embryos from electric-field-induced fusion: OZIL & MODLINSKI 211

Tissue culture

- cell–matrix interactions in cultured rabbit dental cells: LESOT, SMITH, MEYER, STAUBLI & RUCH 195

d-Tubocurarine

- effect on differentiation of fibre types in avian muscle: SOHAL & SICKLES 79

Vertebra

- shape
- clonal theory – reinvestigation using Fourier analysis: O'HIGGINS, JOHNSON & McANDREW 171

Whole embryo culture

- cinemicrographic study of cell movement in mouse: NAKATSUJI, SNOW & WYLIE 99

X-inactivation

- gene activity at albino locus in Cattanach's insertion: DEOL, TRUSLOVE & McLAREN 295
