Volume 107 Supplement 1989

Kay, R. R. and Smith, J. C. The molecular basis of positional signalling: introduction	1	Kay, R. R., Berks, M. and Traynor, D. Morphogen hunting in <i>Dictyostelium</i>	81
Wolpert, L. Positional information revisited	3	Williams, J. G., Jermyn, K. A. and Duffy, K. T. Formation and anatomy of the prestalk zone of <i>Dictyostelium</i>	91
INTRACELLULAR SIGNALLING CENTRES: THEIR ESTABLISHMENT AND MODES OF ACTION			
St Johnston, D., Driever, W., Berleth, T., Riechstein, S. and Nüsslein-Volhard, C. Multiple steps in the localization of <i>bicoid</i> RNA to the anterior pole of the <i>Drosophila</i> oocyte	13	Schaller, H. C., Hoffmeister, S. A. H. and Dübel, S. Role of the neuropeptide head activator for growth and development in hydra and mammals	99
Lehmann, R. and Frohnhöfer, H. G. Segmental polarity and identity in the abdomen of <i>Drosophila</i> is controlled by the relative position of gap gene expression	21	Maden, M., Ong, D. E., Summerbell, D. and Chytil, F. The role of retinoid-binding proteins in the generation of pattern in the developing limb, the regenerating limb and the nervous system	109
Yisraeli, J. K., Sokol, S. and Melton, D. A. The process of localizing a maternal messenger RNA in <i>Xenopus</i> oocytes	31	Smith, S. M., Pang, K., Sundin, O., Wedden, S. E., Thaller, C. and Eichele, G. Molecular approaches to vertebrate limb morphogenesis	121
Gerhart, J., Danilchik, M., Doniach, T., Roberts, S., Rowning, B. and Stewart, R. Cortical rotation of the <i>Xenopus</i> egg: consequences for the anteroposterior pattern of embryonic dorsal development	37	Oro, A. E., Umesono, K. and Evans, R. M. Steroid hormone receptor homologs in development	133
SHORT-RANGE INTERCELLULAR SIGNALS			
Austin, J., Maine, E. M. and Kimble, J. Genetics of intercellular signalling in <i>C. elegans</i>	53	Slack, J. M. W., Darlington, B. G., Gillespie, L. L., Godsave, S. F., Isaacs, H. V. and Paterno, G. D. The role of fibroblast growth factor in early <i>Xenopus</i> development	141
Tomlinson, A. Short-range positional signals in the developing <i>Drosophila</i> eye	59	Smith, J. C., Cooke, J., Green, J. B. A., Howes, G. and Symes, K. Inducing factors and the control of mesodermal pattern in <i>Xenopus laevis</i>	149
Gelbart, W. M. The <i>decapentaplegic</i> gene: a TGF- β homologue controlling pattern formation in <i>Drosophila</i>	65	McMahon, A. P. and Moon, R. T. <i>int-1</i> – a proto-oncogene involved in cell signalling	161
LONG-RANGE INTERCELLULAR SIGNALS			
Johnson, R. L., Gundersen, R., Lilly, P., Pitt, G. S., Pupillo, M., Sun, T. J., Vaughan, R. A. and Devreotes, P. N. G-protein-linked signal transduction systems control development in <i>Dictyostelium</i>	75	Meinhardt, H. Models for positional signalling with application to the dorsoventral patterning of insects and segregation into different cell types	169
		Index of Authors and Titles	181
		Subject Index	183
