Volume 108 (4) 1990

ESSAY IN DEVELOPMENT

Whitaker, M. and Patel, R.

Calcium and cell cycle control

525

CONTRIBUTED PAPERS

Couly, G. and Le Douarin, N. M.

Head morphogenesis in embryonic avian chimeras: evidence for a segmental pattern in the ectoderm corresponding to the neuromeres

543

Nishida, H.

Determinative mechanisms in secondary muscle lineages of ascidian embryos: development of muscle-specific features in isolated muscle progenitor cells

559

Warga, R. M. and Kimmel, C. B.

Cell movements during epiboly and gastrulation in zebrafish

569

Kimmel, C. B., Warga, R. M. and Schilling, T. F.

Origin and organization of the zebrafish fate map

581

Ruiz i Altaba, A.

Neural expression of the *Xenopus* homeobox gene *Xhox3*: evidence for a patterning neural signal that spreads through the ectoderm

595

Serbedzija, G. N., Fraser, S. E.

and Bronner-Fraser, M.

Pathways of trunk neural crest cell migration in the mouse embryo as revealed by vital dye labelling

605

Schulz, R. A., Milksch, J. L., Xie, X., Cornish, J. A. and Galewsky, S.

Expression of the *Drosophila gonadal* gene: alternative promoters control the germ-line expression of monocistronic and bicistronic gene transcripts

613

Allen, F., Tickle, C. and Warner, A.

The role of gap junctions in patterning of the chick limb bud

623

Clark, P., Connolly, P., Curtis, A. S. G., Dow, J. A. T. and Wilkinson, C. D. W.

Topographical control of cell behaviour: II. Multiple grooved substrata

635

Akhurst, R. J., Lehnert, S. A., Faissner, A. and Duffie, E.

TGF beta in murine morphogenetic processes: the early embryo and cardiogenesis

645

Onda, H., Goldhamer, D. J. and Tassava, R. A.

An extracellular matrix molecule of newt and axolotl regenerating limb blastemas and embryonic limb buds: immunological relationship of MT1 antigen with tenascin

657

Harvey, R. P.

The *Xenopus MyoD* gene: an unlocalized maternal mRNA predates lineage-restricted expression in the early embryo

669

Levi, G., Broders, F., Dunon, D., Edelman, G. M. and Thiery, J. P.

Thyroxine-dependent modulations of the expression of the neural cell adhesion molecule N-CAM during *Xenopus laevis* metamorphosis

681

Hallböök, F., Ayer-LeLièvre, C., Ebendal, T. and Persson, H.

Expression of nerve growth factor receptor mRNA during early development of the chicken embryo: emphasis on cranial ganglia

693

Yaginuma, H., Shiga, T., Homma, S., Ishihara, R. and Oppenheim, R. W.

Identification of early developing axon projections from spinal interneurons in the chick embryo with a neuron specific β -tubulin antibody: evidence for a new 'pioneer' pathway in the spinal cord

705

Schwarz, M., Harbers, K. and Kratochwill, K.

Transcription of a mutant collagen I gene is a cell type and stage-specific marker for odontoblast and osteoblast differentiation

717

The EMBL Data Library

How to submit nucleotide sequence data to the EMBL Data Library: information for authors
