Contents

Volume 128 (24) 2001

Aihara, M. and Amemiya, S. (2001). Left-right positioning of the adult rudiment in sea urchin larvae is directed by the right side. *Development* **128**, 4935-4948

Marx, M., Rutishauser, U. and Bastmeyer, M. (2001). Dual function of polysialic acid during zebrafish central nervous system development. *Development* **128**, 4949-4958

Kay, R. R. and Thompson, C. R. L. (2001). Cross-induction of cell types in *Dictyostelium*: evidence that DIF-1 is made by prespore cells. *Development* **128**, 4959-4966

Voiculescu, O., Taillebourg, E., Pujades, C., Kress, C., Buart, S., Charnay, P. and Schneider-Maunoury, S. (2001). Hindbrain patterning: *Krox20* couples segmentation and specification of regional identity. *Development* **128**, 4967-4978

Li, J. Y. H. and Joyner, A. L. (2001). *Otx2* and *Gbx2* are required for refinement and not induction of mid-hindbrain gene expression. *Development* **128**, 4979-4991

Spassky, N., Heydon, K., Mangatal, A., Jankovski, A., Olivier, C., Queraud-Lesaux, F., Goujet-Zalc, C., Thomas, J.-L. and Zalc, B. (2001). Sonic hedgehog-dependent emergence of oligodendrocytes in the telencephalon: evidence for a source of oligodendrocytes in the olfactory bulb that is independent of PDGFR α signaling. *Development* **128**, 4993-5004

Zelhof, A. C., Bao, H., Hardy, R. W., Razzaq, A., Zhang, B. and Doe, C. Q. (2001). *Drosophila* Amphiphysin is implicated in protein localization and membrane morphogenesis but not in synaptic vesicle endocytosis. *Development* **128**, 5005-5015

Wang, W., Chan, E. K., Baron, S., Van De Water, T. and Lufkin, T. (2001). *Hmx2* homeobox gene control of murine vestibular morphogenesis. *Development* **128**, 5017-5029

Patel, K., Nash, J. A. B., Itoh, A., Liu, Z., Sundaresan, V. and Pini, A. (2001). Slit proteins are not dominant chemorepellents for olfactory tract and spinal motor axons. *Development* **128**, 5031-5037

Starr, D. A., Hermann, G. J., Malone, C. J., Fixsen, W., Priess, J. R., Horvitz, H. R. and Han, M. (2001). *unc-83* encodes a novel component of the nuclear envelope and is essential for proper nuclear migration. *Development* **128**, 5039-5050

Zhao, S., Hung, F.-C., Colvin, J. S., White, A., Dai, W., Lovicu, F. J., Ornitz, D. M. and Overbeek, P. A. (2001). Patterning the optic neuroepithelium by FGF signaling and Ras activation. *Development* **128**, 5051-5060

Rau, A., Buttigereit, D., Holz, A., Fetter, R., Doberstein, S. K., Paululat, A., Staudt, N., Skeath, J., Michelson, A. M. and Renkawitz-Pohl, R. (2001). *rolling pebbles (rols)* is required in *Drosophila* muscle precursors for recruitment of myoblasts for fusion. *Development* **128**, 5061-5073

Lovicu, F. J. and McAvoy, J. W. (2001). FGF-induced lens cell proliferation and differentiation is dependent on MAPK (ERK1/2) signalling. *Development* **128**, 5075-5084

Cayirlioglu, P., Bonnette, P. C., Dickson, M. R. and Duronio, R. J. (2001). *Drosophila E2f2* promotes the conversion from genomic DNA replication to gene amplification in ovarian follicle cells. *Development* **128**, 5085-5098

Long, F., Zhang, X. M., Karp, S., Yang, Y. and McMahon, A. P. (2001). Genetic manipulation of hedgehog signaling in the endochondral skeleton reveals a direct role in the regulation of chondrocyte proliferation. *Development* **128**, 5099-5108

Bhushan, A., Itoh, N., Kato, S., Thiery, J. P., Czernichow, P., Bellusci, S. and Scharfmann, R. (2001). *Fgf10* is essential for maintaining the proliferative capacity of epithelial progenitor cells during early pancreatic organogenesis. *Development* **128**, 5109-5117

Amanai, K. and Jiang, J. (2001). Distinct roles of Central missing and Dispatched in sending the Hedgehog signal. *Development* **128**, 5119-5127

Blankenship, J. T. and Wieschaus, E. (2001). Two new roles for the *Drosophila* AP patterning system in early morphogenesis. *Development* **128**, 5129-5138

Freitas, C., Rodrigues, S., Charrier, J.-B., Teillet, M.-A. and Palmeirim, I. (2001). Evidence for medial/lateral specification and positional information within the presomitic mesoderm. *Development* **128**, 5139-5147

Chapouton, P., Schuurmans, C., Guillemot, F. and Götz, M. (2001). The transcription factor neurogenin 2 restricts cell migration from the cortex to the striatum. *Development* **128**, 5149-5159

Bai, C. B. and Joyner, A. L. (2001). *Gli1* can rescue the in vivo function of *Gli2*. *Development* **128**, 5161-5172

DEVELOPMENT AND DISEASE

Shirane, M., Sawa, H., Kobayashi, Y., Nakano, T., Kitajima, K., Shinkai, Y., Nagashima, K. and Negishi, I. (2001). Deficiency of phospholipase C- γ 1 impairs renal development and hematopoiesis. *Development* **128**, 5173-5180

Kotton, D. N., Ma, B. Y., Cardoso, W. V., Sanderson, E. A., Summer, R. S., Williams, M. C. and Fine, A. (2001). Bone marrow-derived cells as progenitors of lung alveolar epithelium. *Development* **128**, 5181-5188

Brickman, J. M., Clements, M., Tyrell, R., McNay, D., Woods, K., Warner, J., Stewart, A., Beddington, R. S. P. and Dattani, M. (2001). Molecular effects of novel mutations in *Hexx1/HESX1* associated with human pituitary disorders. *Development* **128**, 5189-5199

Dahmane, N., Sánchez, P., Gitton, Y., Palma, V., Sun, T., Beyna, M., Weiner, H. and Ruiz i Altaba, A. (2001). The Sonic Hedgehog-Gli pathway regulates dorsal brain growth and tumorigenesis. *Development* **128**, 5201-5212
