

Volume 64

August 1981

# J E E M

Journal of Embryology and  
Experimental Morphology

Cambridge University Press  
For the Company of Biologists Ltd

## INFORMATION ABOUT THE JOURNAL

The main aim of the Journal is to publish work which gives insight into the mechanisms of development at all levels of organization including molecular, cellular and tissue. It thus welcomes studies dealing with differentiation, pattern formation, morphogenesis, growth, regeneration and ageing. Papers will be primarily considered in terms of the contribution they make to the understanding of developmental mechanisms and this should be stated as clearly as possible. Authors are asked to pay particular attention to making their papers concise. For detailed instructions to contributors please see opposite.

---

**Subscription Rates.** *Journal of Embryology and Experimental Morphology* (ISSN 0022-0752) is published six times yearly, in February, April, June, August, October and December.

The subscription price (which includes postage) of volumes 61-66 (1981) is £105.00 (U.S.A. and Canada US \$305.00). Individual volumes may be purchased at £21.00 (U.S.A. and Canada US \$61.00) each, plus postage. Orders should be sent to a bookseller or to the publishers, Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU, or in the U.S.A. and Canada, to Cambridge University Press, 32 East 57th Street, New York, N.Y. 10022, U.S.A. Orders must be accompanied by payment. Copies of the journal for subscribers in the U.S.A. and Canada are sent by air to New York for delivery with the minimum delay (second class postage paid at New York, N.Y.). POSTMASTER: send address changes in U.S.A. and Canada to Cambridge University Press, 32 East 57th Street, New York, N.Y. 10022.

### Back Volumes.

Volumes 1-10 are available from Wm Dawson & Sons Ltd, Cannon House, Folkestone, Kent, U.K. Later volumes are available from Cambridge University Press at £45 for volumes 11-36, and £18 for volumes 37-60.

### Copyright and Reproduction.

1. Authors may make copies of their own papers in this journal without seeking permission from the Company of Biologists Limited, *provided that such copies are for free distribution only: they must not be sold.*
2. Authors may re-use their own illustrations in other publications appearing under their own name, without seeking permission.
3. For all other matters relating to the reproduction of copyright material written application must be made to Dr R. J. Skaer, Company Secretary, Company of Biologists Limited, Department of Zoology, Downing Street, Cambridge CB2 3EJ, U.K.
4. ISI Tear Service, 3501 Market Street, Philadelphia, Pennsylvania 19104, U.S.A. is authorized to supply single copies of separate articles for private use only.

The **Company of Biologists Limited** is an independent organization (registered as a charity) whose members are active professional biologists. The Company, which was founded in 1925, is the owner of this and other journals which are printed and published by Cambridge University Press.

## INSTRUCTIONS FOR CONTRIBUTORS

Contributions and correspondence about them should be sent to Editorial Office, *J. Embryol. exp. Morph.*, Dept. of Zoology, Downing St, Cambridge CB2 3EJ, U.K.

Contributions should be in English and as concise as possible. They should be typewritten, double-spaced, on one side of the paper, and the pages numbered. Authors should provide a running title of not more than 60 letters and spaces, and at least three **key words** for indexing papers. Papers should be fully ready for press, since revision in proof will not be possible. Footnotes should be avoided. The author is requested to provide **three** copies of the typescript and figures, and is also advised to keep a copy.

**TABLES** should be in typescript on separate sheets, and numbered. Authors should indicate the places for their insertion in the margin of the typescript. Authors are asked not to submit tables in the form of photographic prints. No tables should be submitted that are too large to be printed on one page.

A **SUMMARY** must be provided at the beginning of the text. It should not exceed 500 words. Authors whose language is other than English may provide a translation of the summary into their own language. The author should also send three copies of an **abstract** which must not be more than 100 words long and should be headed by the author's name and address and the title of the paper; these are sent to two different abstracting services.

Authors are requested to use SI units throughout.

**ACKNOWLEDGEMENTS** should be placed immediately before the list of references.

**REFERENCES** should be listed alphabetically. In the text they should be referred to by the author's name and the year of publication. If more than one reference to the same author and year is quoted, use suffixes a, b, etc. (e.g. 1951a) in text and reference list. Papers and books should be listed as shown in the examples given below. Journal names should be given the World List of Scientific Periodicals abbreviation.

Deuchar, E. M. (1971). The mechanism of axial rotation in the rat embryo: an experimental study *in vitro*. *J. Embryol. exp. Morph.* 25, 189-201.

Dalcq, A. (1941). L'Œuf et son Dynamisme Organisateur. Paris: Albin Michel.

### ILLUSTRATIONS

Line drawings should be used whenever possible in preference to illustrations requiring half-tone reproduction. Authors should submit the original of each illustration and two photocopies. Each illustration should have the name of the author and the figure number written on the back, together with indication of orientation and any proposed reduction in size. No illustration or page of illustrations together with its lettering must exceed 130 mm in width and 190 mm in length, as finally reproduced. Magnification should be indicated, when relevant, by a scale line drawn in Indian ink on or beside the illustration.

Illustrations should be referred to in the text as 'Fig. 1' etc. The places for insertion into the text should be indicated in the margin of the typescript. Legends for all illustrations should be typed together, separately from the main text.

**LINE DRAWINGS.** These should, if possible, be of such a size that they are reduced for publication to two thirds linearly. The illustrations should be drawn in Indian ink on white board or mounted tracing paper. All lettering or numerals should be put on the diagrams, lightly, with a soft pencil.

**HALF-TONE ILLUSTRATIONS.** (Photographs, shaded diagrams.) These may be limited in number. They should be numbered in series with the other illustrations, if any. Photographs should be glossy bromide prints with good definition and adequate contrast. The editors prefer that half-tone illustrations are labelled by the Press. In this case all illustrations should be submitted at final size. Arrows etc. should be on the photographs. All letters or numerals which are to go on or beside the illustrations should be on an accurately located covering sheet of transparent or tracing paper. If authors wish to label their own half-tone illustrations the labelling should be consistent with the style of the journal and illustrations may then be submitted at larger than final size.

**COLOUR PLATES.** These can be reproduced provided the author meets the additional cost.

**PROOFS.** Authors will receive one set of proofs for correction and return to the Editorial Office. Authors may be required to pay for alterations in proof other than those needed to correct printer's errors.

**REPRINTS.** Authors will receive two hundred free reprints. Additional copies may be ordered for purchase when proofs are returned to the Editorial Office.

Printed in Great Britain at the  
University Press, Cambridge

JEEM is being increased in extent and in 1981 includes the first of a series of special volumes. These will publish papers from workshop meetings on selected topics, held under the auspices of the Company of Biologists Limited.

The special volume this year will be:

## **GROWTH AND THE DEVELOPMENT OF PATTERN**

Editors

R. M. GAZE, V. FRENCH, M. H. L. SNOW and D. SUMMERBELL

This volume will contain papers presented in relation to a discussion meeting held at the White House, Isle of Thorns, Sussex, U.K. in May 1981. It is being published as Volume 65 Supplement and will be distributed with Volume 65 in October 1981.

The special volume is included in the annual subscription, but may also be purchased separately for £21.00.
