

Volume 81 June 1984

<b>Takeichi, T. and Kubota, H.</b> Structural basis of the activation wave in the egg of <i>Xenopus laevis</i>	1-16
<b>Lehtonen, E., Wartiovaara, J. and Reima, I.</b> Cell relationships during aggregation between preimplantation embryos and teratocarcinoma-derived cells	17-35
<b>Deparis, P. and Jaylet, A.</b> The role of endoderm in blood cell ontogeny in the newt <i>Pleurodeles waltl</i>	37-47
<b>Minkoff, R.</b> Cell cycle analysis of facial mesenchyme in the chick embryo I. Labelled mitoses and continuous labelling studies	49-59
<b>Minkoff, R. and Martin, R. E.</b> Cell cycle analysis of facial mesenchyme in the chick embryo II. Label dilution studies and developmental fate of slow cycling cells	61-73
<b>Stern, C. D. and Bellairs, R.</b> The roles of node regression and elongation of the <i>area pellucida</i> in the formation of somites in avian embryos	75-92
<b>Bechtol, K. B.</b> Characterization of a cell-surface differentiation antigen of mouse spermatogenesis: timing and localization of expression by immunohistochemistry using a monoclonal antibody	93-104
<b>Frost, S. K., Epp, L. G. and Robinson, S. J.</b> The pigmentary system of developing axolotls I. A biochemical and structural analysis of chromatophores in wild-type axolotls	105-125
<b>Frost, S. K., Epp, L. G. and Robinson, S. J.</b> The pigmentary system of developing axolotls II. An analysis of the melanoid phenotype	127-142
<b>Shi, W.-K. and Heath, J. K.</b> Apolipoprotein expression by murine visceral yolk sac endoderm	143-152
<b>Ferrari, P. A. and Koch, W. E.</b> Development of the iris in the chicken embryo I. A study of growth and histodifferentiation utilizing immunocytochemistry for muscle differentiation	153-167
<b>Ferrari, P. A. and Koch, W. E.</b> Development of the iris in the chicken embryo II. Differentiation of irideal muscles <i>in vitro</i>	169-183
<b>French, V.</b> The structure of supernumerary leg regenerates in the cricket	185-209
<b>Maro, B., Johnson, M. H., Pickering, S. J. and Flach, G.</b> Changes in actin distribution during fertilization of the mouse egg	211-237
<b>McSherry, G. M.</b> Mapping of cortical histogenesis in the ferret	239-252
<b>Müller, W. A.</b> Retinoid and pattern formation in a hydroid	253-271
<b>Mareel, M., Bellairs, R., De Bruyne, G. and Van Peteghem, M. C.</b> Effect of microtubule inhibitors on the expansion of hypoblast and margin of overgrowth of chick embryos	273-286
<b>Nijhout, H. F.</b> Colour pattern modification by coldshock in Lepidoptera	287-305
<b>Index of Authors and Titles</b>	307-308
<b>Subject Index</b>	309-312
