

Supplementary Figure 2:

Supplementary Fig 2. Day 2 cultures were treated with or without 2-DG (25, 50, 100 mM, 24h). **A:** Western blot for LKB1, phosphorylated-LKB1 (Ser 431), AMPK and phosphorylated-AMPK (Thr 172). **B:** Densitometry measurement relative to the control. **C:** Immunostaining for occludin (green) and ABCB1 (red). **D:** Canaliculus length per cell (***) $p < 0.001$.
