The Company of Biologists Limited, founded in 1925, is a non-commercial organization having tax-exempt charitable status. There is a Board of Directors consisting of about 20 professional biologists, who receive no salary or fees for their services. The Company's main function is to own and manage *Development*, *Journal of Cell Science* and *The Journal of Experimental Biology*. It also publishes *BioEssays* for the ICSU Press. Any surplus on publishing not required for the journals' reserves is transferred to an Educational Trust Fund, which makes grants in aid of societies concerned with the fields of interest covered by the Company's journals. Grants are also made to conferences and summer schools in the fields of its journals.
