

# THE CYTOSKELETON: CELL FUNCTION AND ORGANIZATION

---

## CONTENTS

### VISUALIZING THE CYTOSKELETON

- page 1 WEISS, D. G. Visualization of the living cytoskeleton by video-enhanced microscopy and digital image processing
- 17 SANGER, J. M., MITTAL, B., POCHAPIN, M. and SANGER, J. W. Observations of microfilament bundles in living cells microinjected with fluorescently labelled contractile proteins
- 45 LAWSON, D. Myosin distribution and actin organization in different areas of antibody-labelled quick frozen fibroblasts
- 55 AMOS, W. B., AMOS, L. W. and LINCK, R. W. Studies of tektin filaments from flagellar microtubules by immunoelectron microscopy

### CYTOSKELETAL ORGANIZATION

- 69 GOLDMAN, R. D., GOLDMAN, A. E., GREEN, K. J., JONES, J. C. R., JONES, S. M. and YANG, H.-Y. Intermediate filament networks: organization and possible functions of a diverse group of cytoskeletal elements
- 99 FEY, E. G., ORNELLES, D. A. and PENMAN, S. Association of RNA with the cytoskeleton and the nuclear matrix
- 121 MITCHISON, T. J. The role of microtubule polarity in the movement of kinesin and kinetochores
- 129 MORTARA, R. A. and KOCH, G. L. E. Analysis of pseudopodial structure and assembly with viral projections

### MICROTUBULE-BASED CELL MOVEMENTS

- 145 KOONCE, M. P., EUTENEUER, U. and SCHLIWA, M. *Reticulomyxa*: a new model system of intracellular transport
- 161 LASEK, R. J. Polymer sliding in axons
- 181 SHEETZ, M. P., VALE, R., SCHNAPP, B., SCHROER, T. and REESE, T. Vesicle movements and microtubule-based motors
- 189 JOHNSON, K. A., MARCHESE-RAGONA, S. P., CLUTTER, D. B., HOLZBAUR, E. L. F. and CHILCOTE, T. J. Dynein structure and function
- 197 COLLINS, C. A. and VALLEE, R. B. Characterization of the sea-urchin egg microtubule-activated ATPase
- 205 McDONALD, K. L., PFISTER, K., MASUDA, H., WORDEMAN, L., STAIGER, C. and CANDE, W. Z. Comparison of spindle elongation *in vivo* and *in vitro* in *Stephanopyxis turris*

### THE CYTOSKELETON IN SIMPLE CELLULAR SYSTEMS

- 229 MARKS, J., HAGAN, I. M. and HYAMS, J. S. Growth polarity and cytokinesis in fission yeast: the role of the cytoskeleton
- 243 GULL, K., HUSSEY, P. J., SASSE, R., SCHNEIDER, A., SEEBECK, T. and SHERWIN, T. Tubulin isotypes: generation of diversity in cells and microtubular organelles
- 257 CHALFIE, M., DEAN, E., REILLY, E., BUCK, K. and THOMSON, J. N. Mutations affecting microtubule structure in *Caenorhabditis elegans*
- 273 DANE, P. J. and TUCKER, J. B. Supracellular microtubule alignments in cell layers associated with the secretion of certain fish scales

*Continued overleaf*

*Contents*

THE CYTOSKELETON IN DEVELOPMENT

- 293 KIRSCHNER, M. and SCHULZE, E. Morphogenesis and the control of microtubule dynamics in cells
- 311 WARN, R. M. The cytoskeleton of the early *Drosophila* embryo
- 329 WYLIE, C. C., HEASMAN, J., PARKE, J. M., ANDERTON, B. and TANG, P. Cytoskeletal changes during oogenesis and early development in *Xenopus laevis*
- 343 MARO, B., HOWLETT, S. K. and HOULISTON, E. Cytoskeletal dynamics in the mouse egg
