

## CONTENTS VOLUME 57 OCTOBER 1982

page	1	AUTUORI, F., BRUNK, U., PETERSON, E. and DALLNER, G. Fractionation of isolated liver cells after disruption with a nitrogen bomb and sonication
	15	DONALDSON, D. J., SMITH, G. N. JR. and KANG, A. H. Epidermal cell migration on collagen and collagen-derived peptides
	25	NELSON, W. J. and TRAUB, P. Intermediate (10 nm) filament proteins and the Ca <sup>2+</sup> -activated proteinase specific for vimentin and desmin in the cells from fish to man: an example of evolutionary conservation
	51	BILLIG, D., NICOL, A., MCGINTY, R., COWIN, P., MORGAN, J. and GARROD, D. The cytoskeleton and substratum adhesion in chick embryonic corneal epithelial cells
	73	MORTIN, L. I., and SEDAT, J. W. Structure of <i>Drosophila</i> polytene chromosomes: evidence for a toroidal organization of the bands.
	115	FAGHIHI SHIRAZI, M., ARONSON, N. N. JR. and DEAN, R. T. Temperature dependence of certain integrated membrane functions in macrophages
	129	HEULIN, M. H., ARTUR, M., STRACZEK, J., BELLEVILLE, F., NABET, P., HERMAN, A., LEBEURRE, M. D. and SCHMIPFF, R. M. Effect of low molecular weight human serum factors and human somatomedin peptides on human lymphocyte cultures
	139	SCHOFIELD, P. N. and WALKER, I. O. Control of histone gene expression in <i>Physarum polycephalum</i> . I. Protein synthesis during the cell cycle
	151	BARNES, K. L., CRAIGIE, R. A., CATTINI, P. A. and CAVALIER-SMITH, T. Chromatin from the unicellular red alga <i>Porphyridium</i> has a nucleosome structure
	161	WEAKLEY, B. S., WEBB, P. and JAMES, J. L. Intake of phosphatase-active plasma membrane into the cytoplasm of oocytes from sexually immature hamsters
	177	AZZARONE, B. and MACIEIRA-COELHO, A. Heterogeneity of the kinetics of proliferation within human skin fibroblastic cell populations
	189	PETTITT, J. M. Ultrastructural and immunocytochemical demonstration of gametophytic proteins in the pollen tube wall of the primitive gymnosperm <i>Cycas</i>
	215	LEE, W. M., CRAN, D. G. and LANE, N. J. Carbon dioxide induced disassembly of gap-junctional plaques
	229	PORTER, E. K., BIRD, J. M. and DICKINSON, H. G. Nucleic acid synthesis in microsporocytes of <i>Lilium</i> cv. cinnabar: events in the nucleus
	247	CHAMBERS, T. J. Osteoblasts release osteoclasts from calcitonin-induced quiescence
	261	COLLINS, A. and WALDREN, C. Cell-cycle kinetics and ultraviolet light survival in UV-1, a Chinese hamster ovary cell mutant defective in post-replication recovery
	277	ANDREWS, P., MILSOM, D. W. and FORD, W. L. Migration of lymphocytes across specialized vascular endothelium. V. Production of a sulphated macromolecule by high endothelial cells in lymph nodes
	293	STEPHENSON, E. M. Locomotory invasion of human cervical epithelium and avian fibroblasts by HeLa cells <i>in vitro</i>
	315	RASSMUSSEN, C. D. and BERGER, J. D. Downward regulation of cell size in <i>Paramecium tetraurelia</i> : effects of increased cell size, with or without increased DNA content, on the cell cycle

- 331 THOROGOOD, P., SMITH, L., NICOL, A., MCGINTY, R. and GARROD, D.  
Effects of vitamin A on the behaviour of migratory neural crest cells *in vitro*
- 351 KNIBIEHLER, B., MIRRE, C. and ROSSET, R. Nucleolar organizer structure and  
activity in a nucleolus without fibrillar centres: the nucleolus in an established  
*Drosophila* cell line
