

INDEX OF AUTHORS

- APLIN, J. D. 287
 AUBIN, J. E. 125

 BARRNETT, R. J. 469
 BELLOWS, C. G. 125
 BELMONT, A. S. 201
 BENAVENTE, R. 411
 BERTOLINI, B. 149
 BOTTKE, W. 225
 BROKAW, C. J. 385
 BROWN, A. F. 455

 CLEFFMANN, G. 211
 COX, G. S. 363
 CREANOR, J. 263
 CSORDAS, A. 303

 DAVE, A. J. 345

 ETHERINGTON, D. J. 139

 FLICKINGER, C. J. 79
 FODEN, L. J. 287

 GODWARD, M. B. E. 345
 GÖRTZ, H.-D. 445
 GRAHAM, C. F. 331
 GRINNELL, F. 95
 GRÖBNER, P. 303

 IRELAND, G. W. 165

 JANERO, D. R. 469
 JELSEMA, C. L. 469

 KARINIEMI, A.-L. 49
 KAWANO, S. 241
 KITAMURA, A. 185
 KUROIWA, T. 241

 LANGEVIN, G. L. 1
 LEHTO, V.-P. 49
 LINCK, R. W. 1
 LOIDL, P. 303
 LYTTLETON, P. 63

 MCAULEY, P. J. 423
 MARUYAMA, T. 109
 MEDINA, F. J. 313
 MELCHER, A. H. 125
 MICHAELS, A. S. 469
 MITCHISON, J. M. 263
 MONACO, G. 149
 MORENA DÍAZ de la ESPINA, S. 313

 NICOLINI, C. A. 201

 OMOTO, C. K. 385

 PAPA, M. 411
 PUSCHENDORF, B. 303

 RAYNER, M. J. 331
 RISUEÑO, M. C. 313
 ROBERTSON, J. G. 63

 SALISBURY, J. L. 433
 SALUSTRI, A. 149
 SCHWEIGER, H.-G. 23, 35
 SEYFERT, H.-M. 211
 SHOEMAN, R. L. 23, 35
 STERN, C. D. 165
 SUZUKI, T. 241

 VARTIO, T. 49
 VIRTANEN, I. 49

 WARDALE, R. J. 139
 WETTSTEIN, R. 411

INDEX OF SUBJECTS

- Acetabularia**
 gene expression: SHOEMAN & SCHWEIGER, I 23
 gene expression: SHOEMAN & SCHWEIGER, II 35
- Acyltransferase**
 activity in membrane lipid metabolism in *Chlamydomonas*: JELSEMA, MICHAELS, JANERO & BARNETT 469
- Adhesion**
 of cells promoted by placental spreading factor: APLIN & FODEN 287
 of chick embryonic cells, study of contacts by interference reflection microscopy: IRELAND & STERN 165
- Amoebae**
 induced to undergo pinocytosis: FLICKINGER 79
- Apoglossum ruscifolium**
 development of mitotic spindle poles: DAVE & GODWARD 345
- Butyrate**
 cell-cycle-dependent effects in *Physarum polycephalum*: LOIDL, GRÖBNER, CSORDAS & PUSCHENDORF 303
- Calcium**
 localization in vesicles in green algae: SALISBURY 433
- Cell adhesion**
 of neutrophil granulocytes to collagen: BROWN 455
- Cell cycle**
 -dependent effects of butyrate in *Physarum*: LOIDL, GRÖBNER, CSORDAS & PUSCHENDORF 303
 of fission yeast, protein synthesis in; CREANOR & MITCHISON 263
- Cell locomotion**
 of neutrophil granulocytes on collagen: BROWN 455
- Cell morphology**
 of serum-stimulated fibroblasts, nuclear changes precede cellular: BELMONT & NICOLINI 201
- Ceratium tripos**
 fine structure of longitudinal flagellum: MARUYAMA 109
- Chick embryonic cells**
 contacts with substrate studied by interference reflection microscopy: IRELAND & STERN 165
- Chlamydomonas reinhardtii**
 membrane lipid metabolism: JELSEMA, MICHAELS, JANERO & BARNETT 469
- Clover**
 white, biogenesis of cell walls and membranes: ROBERTSON & LYTTLETON 63
- Collagen**
 fibres in gels, tension and orientation of fibroblasts in: BELLOWS, MELCHER & AUBIN 125
 hydrated lattices, migration of human neutrophils on: GRINNELL 95
 matrices, adhesion and locomotion on, by neutrophil granulocytes: BROWN 455
- Cytochemistry**
 of nucleolar fibrillar centres in plant cells: RISUEÑO, MEDINA & MORENA DÍAZ de la ESPINA 313
- Differentiation**
 in embryonal carcinoma cells: RAYNER & GRAHAM 331
- Dinoflagellate**
 structure of longitudinal flagellum: MARUYAMA 109
- DNA content**
 mean macronuclear levels in *Tetrahymena*: SEYFERT & CLEFFMANN 211
- Embryonal carcinoma**
 cell differentiation, clonal analysis of change in growth phenotype: RAYNER & GRAHAM 331
- Endosymbionts**
 in *Paramecium bursaria*: GÖRTZ 455
- Ferritin**
 isolated from oocytes of snails: BOTTKE 225
- Fibrinogen**
 in placental cell-spreading factor: APLIN & FODEN 287
- Fibronectin**
 in placental cell-spreading factor: APLIN & FODEN 287
- Flagellar roots**
 of green algae, localization of calcium: SALISBURY 433

Flagellum

- longitudinal, fine structure in *Ceratium tripos*: MARUYAMA 109
- of sperm, microbules, structure and composition: LINCK & LANGEVIN 1

Fibrillar centres

- in nucleoli of plant meristematic cells: RISUEÑO, MEDINA & MORENA DÍAZ de la ESPINA 313

Fibroblasts

- of periodontal ligament, tension and orientation in collagen gels: BELLOWS, MELCHER & AUBIN 125

Green hydra

- relations of host cell and algal mitosis in symbiosis: MCAULEY 423

HeLa cells

- isolated nuclei, uptake of soluble proteins by: COX 363

Hydrophobic interactions

- in attachment of *Paramecium* to polystyrene: KITAMURA 185

Image analysis

- in study of morphology of serum-stimulated fibroblasts: BELMONT & NICOLINI 201

Infection threads

- biogenesis in root hairs and nodules of white clover: ROBERTSON & LYTTLETON 63

Interference reflection

- study of cell contacts: IRELAND & STERN 165

Keratinocytes

- cultured from suction-blister epidermis: KARINIEMI, LEHTO, VARTIO & VIRTANEN 49

Lysosomal enzyme

- in mononuclear cell fraction of muscle: ETHERINGTON & WARDALE 139

Macronucleus

- mean DNA contents in *Tetrahymena*: SEYFERT & CLEFFMANN 211

[H]mannose

- labelled material, redistribution in amoebae after pinocytosis: FLICKINGER 79

Marginal band

- in newt erythrocytes, molecular components of microtubular system: MONACO, SALUSTRI & BERTOLINI 149

Membrane lipid

- metabolism in *Chlamydomonas*: JELSEMA, MICHAELS, JANERO & BARRNETT 469

Microtubules

- of sperm flagella, structure and composition: LINCK & LANGEVIN 1
- of the marginal band in newt erythrocytes: MONACO, SALUSTRI & BERTOLINI 149

Migration

- of human neutrophils on collagen lattices: GRINNELL 95

Mitochondrial nucleoids

- isolated from *Physarum polycephalum*: SUZUKI, KAWANO & KUROIWA 241

Mitosis

- algal, relation with host cell in green hydra symbiosis: MCAULEY 423

Mitotic spindle poles

- ultrastructure of development in *Apo-glossum ruscifolium*: DAVE & GODWARD 345

Mononuclear cell population

- in muscle extracts, lysosomal enzymes: ETHERINGTON & WARDALE 139

Nuclear activation

- a model system for analysis in *Paramecium* attachment to polystyrene: KITAMURA 185

Nuclear morphology

- of serum-stimulated fibroblasts: BELMONT & NICOLINI 201

Nuclear transcription

- in plant meristematic cells: RISUEÑA, MEDINA & MORENA DÍAZ de la ESPINA 313

Nucleated erythrocytes

- molecular components of microtubular system of marginal band: MONACO, SALUSTRI & BERTOLINI 149

Nuclei

- isolated HeLa, uptake of proteins by: COX 363

Nucleoid-associating protein

- in *Physarum polycephalum*: SUZUKI, KAWANO & KUROIWA 241

Nucleolar organizing region

- in plant meristematic cells: RISUEÑO, MEDINA & MORENA DÍAZ de la ESPINA 313

Neutrophil granulocytes

- adhesion and locomotion on collagen: BROWN 455

Neutrophils

- human, migration in collagen lattices: GRINNELL 95

- Nodules**
of white clover, biogenesis of cell walls and membranes in: ROBERTSON & LYTTLETON 63
- Paramecium bursaria***
infection with bacteria and yeasts: GÖRTZ 445
- Paramecium caudatum***
attachment to polystyrene surfaces: KITAMURA 185
- Peribacteroid membranes**
biogenesis of, in root hairs and nodules of white clover: ROBERTSON & LYTTLETON 63
- Periodontal ligament**
fibroblasts in collagen, tension and orientation: BELLOWS, MELCHER & AUBIN 125
- Physarum polycephalum***
cell-cycle-dependent effects of butyrate: LOIDL, GRÖBNER, CSORDAS & PUSCHENDORF 303
structure of mitochondrial nucleoids from: SUZUKI, KAWANO & KUROIWA 241
- Pinocytosis**
induced in amoeba, uptake of [³H]mannose: FLICKINGER 79
- Placenta**
contains cell spreading factor: APLIN & FODEN 287
- Plasma membranes**
biogenesis of, in root hairs and nodules of white clover: ROBERTSON & LYTTLETON 63
- Poly(A)⁺ RNA**
-induced translation products in wheat germ cell-free system: SHOEMAN & SCHWEIGER, II 35
- Protein synthesis**
in cell cycle of fission yeast: CREANOR & MITCHISON 263
- Proteins**
soluble, uptake by isolated nuclei: COX 363
- Retinoic acid**
-induced differentiation in mouse embryonal carcinoma cells: RAYNER & GRAHAM 331
- Retraction fibre**
in flagellum of longitudinal flagellum in *Ceratium tripos*: MARUYAMA 109
- Schizosaccharomyces pombe***
protein synthesis in cell cycle: CREANOR & MITCHISON 263
- Sea urchin**
sperm terminal filament, structure and behaviour: OMOTO & BROKAW 385
- Serum stimulation**
of fibroblasts, nuclear changes precede cellular: BELMONT & NICOLINI 201
- Sex chromosome**
system during spermatogenesis in *Tegenaria domestica*: BENAVENTE, WETTSTEIN & PAPA 411
- Sexual cell recognition**
a model system for analysis in *Paramecium*: KITAMURA 185
- Skeletal muscle**
mononuclear cell enzyme activities: ETHERINGTON & WARDALE 139
- Snails**
vitellogenic ferritin, isolation and properties: BOTTKE 225
- Sperm**
flagellar microtubules, structure and composition: LINCK & LANGEVIN 1
terminal filament, structure and behaviour: OMOTO & BROKAW 385
- Spermatogenesis**
of *Tegenaria domestica*, ultrastructure of sex chromosome system: BENAVENTE, WETTSTEIN & PAPA 411
- Suction-blisters**
ultrastructure of keratinocytes cultured from: KARINIEMI, LEHTO, VARTIO & VIRTANEN 49
- Symbiosis**
in green hydra, relations of host cell and algal mitosis: MCAULEY 423
- Symbiotic**
bacteria, chlorellae and yeasts with *Paramecium bursaria*: GÖRTZ 445
- Tegenaria domestica***
spermatogenesis, ultrastructure of sex chromosome system: BENAVENTE, WETTSTEIN & PAPA 411
- Terminal filament**
of sea-urchin sperm, behaviour and structure: OMOTO & BROKAW 385
- Tetrahymena***
mean macronuclear DNA contents: SEYFERT & CLEFFMANN 211
- Tetraselmis subcordiformis***
localization of calcium in flagellar roots: SALISBURY 433
- Translation *in vitro***
by poly(A)⁺ RNA from *Acetabularia*: SHOEMAN & SCHWEIGER, II 35

Tryptophan

incorporation in cell cycle of fission yeast:
CREANOR & MITCHISON 263

Two-dimensional electrophoresis

wheat germ cell-free proteins as internal
references: SHOEMAN & SCHWEIGER, I
23

Ultrastructure

of development of mitotic spindle poles in
Apoglossum ruscifolium: DAVE & GODWARD
345

of human keratinocytes cultured from
suction-blister epidermis: KARINIEMI,
LEHTO, VARTIO & VIRTANEN 49

Vesicles

coated and smooth, in biogenesis of cell
walls and membranes in root hairs and
nodules of white clover: ROBERTSON &
LYTTLETON 63

Vitellogenesis

in snails, isolation of ferritin: BOTTKE
225

Wheat germ cell-free system

translation products induced by *Acetabu-*
laria poly(A)⁺ RNA: SHOEMAN & SCHWEI-
GER, II 35

Wheat germ proteins

molecular weight and isoelectric point:
SHOEMAN & SCHWEIGER, I 23

Continued from back cover

- 411 **Benavente, R., Wettstein, R. and Papa, M.** Ultrastructural analysis of the X₁X₂X₃O sex chromosome system during the spermatogenesis of *Tegenaria domestica* (Arachnida)
- 423 **McAuley, P. J.** Temporal relationships of host cell and algal mitosis in green hydra symbiosis
- 433 **Salisbury, J. L.** Calcium-sequestering vesicles and contractile flagellar roots
- 445 **Görtz, H.-D.** Infections of *Paramecium bursaria* with bacteria and yeasts
- 455 **Brown, A. F.** Neutrophil granulocytes: adhesion and locomotion on collagen substrata and in collagen matrices
- 469 **Jelsema, C. L., Michaels, A. S., Janero, D. R. and Barnett, R. J.** Membrane lipid metabolism in *Chlamydomonas reinhardtii* 137⁺ and Y-1 : I. Biochemical localization and characterization of acyltransferase activities
