

CONTENTS VOLUME 58 DECEMBER 1982

page	
1	LINCK, R. W. and LANGEVIN, G. L. Structure and chemical composition of insoluble filamentous components of sperm flagellar microtubules
23	SHOEMAN, R. L. and SCHWEIGER, H.-G. Gene expression in <i>Acetabularia</i> . I. Calibration of wheat germ cell-free translation system proteins as internal references for two-dimensional electrophoresis
35	SHOEMAN, R. L. and SCHWEIGER, H.-G. Gene expression in <i>Acetabularia</i> . II. Analysis of <i>in vitro</i> translation products
49	KARINIEMI, A.-L., LEHTO, V.-P., VARTIO, T. and VIRTANEN, I. Cytoskeleton and pericellular matrix organization of pure adult human keratinocytes cultured from suction-blister roof epidermis
63	ROBERTSON, J. G. and LYTTLETON, P. Coated and smooth vesicles in the biogenesis of cell walls, plasma membranes, infection threads and peribacteroid membranes in root hairs and nodules of white clover
79	FLICKINGER, C. J. Redistribution of material labelled with [³ H]mannose in amoebae induced to undergo pinocytosis
95	GRINNELL, F. Migration of human neutrophils in hydrated collagen lattices
109	MARUYAMA, T. Fine structure of the longitudinal flagellum in <i>Ceratium tripos</i> , a marine dinoflagellate
125	BELLOWS, C. G., MELCHER, A. H. and AUBIN, J. E. Association between tension and orientation of periodontal ligament fibroblasts and exogenous collagen fibres in collagen gels <i>in vitro</i>
139	ETHERINGTON, D. J. and WARDALE, R. J. The mononuclear cell population in rat leg muscle: its contribution to the lysosomal enzyme activities of whole muscle extracts
149	MONACO, G., SALUSTRI, A. and BERTOLINI, B. Observations on the molecular components stabilizing the microtubular system of the marginal band in the newt erythrocyte
165	IRELAND, G. W. and STERN, C. D. Cell-substrate contacts in cultured chick embryonic cells: an interference reflection study
185	KITAMURA, A. Attachment of <i>Paramecium</i> to polystyrene surfaces: a model system for the analysis of sexual recognition and nuclear activation
201	BELMONT, A. S. and NICOLINI, C. A. Cell <i>versus</i> nuclear morphometry of serum-stimulated fibroblasts: nuclear changes precede cell changes
211	SEYFERT, H.-M. and CLEFFMANN, G. Mean macronuclear DNA contents are variable in the ciliate <i>Tetrahymena</i>
225	BOTTKE, W. Isolation and properties of vitellogenic ferritin from snails
241	SUZUKI, T., KAWANO, S. and KUROIWA, T. Structure of three-dimensionally rod-shaped mitochondrial nucleoids isolated from the slime mould <i>Physarum polycephalum</i>
263	CREANOR, J. and MITCHISON, J. M. Patterns of protein synthesis during the cell cycle of the fission yeast <i>Schizosaccharomyces pombe</i>
287	APLIN, J. D. and FODEN, L. J. A cell spreading factor, abundant in human placenta, contains fibronectin and fibrinogen
303	LOIDL, P., GRÖBNER, P., CSORDAS, A. and PUSCHENDORF, B. Cell-cycle-dependent effects of sodium- <i>n</i> -butyrate in <i>Physarum polycephalum</i>
313	RISUEÑO, M. C., MEDINA, F. J. and MORENO DÍAZ DE LA ESPINA, S. Nucleolar fibrillar centres in plant meristematic cells: ultrastructure, cytochemistry and autoradiography
331	RAYNER, M. J. and GRAHAM, C. F. Clonal analysis of the change in growth phenotype during embryonal carcinoma cell differentiation
345	DAVE, A. J. and GODWARD, M. B. E. Ultrastructural studies in the Rhodophyta. I. Development of mitotic spindle poles in <i>Apoglossum ruscifolium</i> , Kylin
363	COX, G. S. Discrimination in the uptake of soluble proteins by isolated nuclei
385	OMOTO, C. K. and BROKAW, C. J. Structure and behaviour of the sperm terminal filament

- page 1 Linck, R. W. and Langevin, G. L. Structure and chemical composition of insoluble filamentous components of sperm flagellar microtubules
- 23 Shoeman, R. L. and Schweiger, H.-G. Gene expression in *Acetabularia*. I. Calibration of wheat germ cell-free translation system proteins as internal references for two-dimensional electrophoresis
- 35 Shoeman, R. L. and Schweiger, H.-G. Gene expression in *Acetabularia*. II. Analysis of *in vitro* translation products
- 49 Kariniemi, A.-L., Lehto, V.-P., Vartiö, T. and Virtanen, I. Cytoskeleton and pericellular matrix organization of pure adult human keratinocytes cultured from suction-blister roof epidermis
- 63 Robertson, J. G. and Lyttleton, P. Coated and smooth vesicles in the biogenesis of cell walls, plasma membranes, infection threads and peribacteroid membranes in root hairs and nodules of white clover
- 79 Flickinger, C. J. Redistribution of material labelled with [³H]mannose in amoebae induced to undergo pinocytosis
- 95 Grinnell, F. Migration of human neutrophils in hydrated collagen lattices
- 109 Maruyama, T. Fine structure of the longitudinal flagellum in *Ceratium tripos*, a marine dinoflagellate
- 125 Bellows, C. G., Melcher, A. H. and Aubin, J. E. Association between tension and orientation of periodontal ligament fibroblasts and exogenous collagen fibres in collagen gels *in vitro*
- 139 Etherington, D. J. and Wardale, R. J. The mononuclear cell population in rat leg leg muscles: its contribution to the lysosomal enzyme activities of whole muscle extracts
- 149 Monaco, G., Salustri, A. and Bertolini, B. Observations on the molecular components stabilizing the microtubular system of the marginal band in the newt erythrocyte
- 165 Ireland, G. W. and Stern, C. D. Cell-substrate contacts in cultured chick embryonic cells: an interface reflection study
- 185 Kitamura, A. Attachment of *Paramecium* to polystyrene surfaces: a model system for the analysis of sexual recognition and nuclear activation
- 201 Belmont, A. S. and Nicolini, C. A. Cell *versus* nuclear morphometry of serum-stimulated fibroblasts: nuclear changes precede cell changes
- 211 Seyfert, H.-M. and Cleffmann, G. Mean macronuclear DNA contents are variable in the ciliate *Tetrahymena*
- 225 Bottke, W. Isolation and properties of vitellogenic ferritin from snails
- 241 Suzuki, T., Kawano, S. and Kuroiwa, T. Structure of three-dimensionally rod-shaped mitochondrial nucleoids isolated from the slime mould *Physarum polycephalum*
- 263 Creanor, J. and Mitchison, J. M. Patterns of protein synthesis during the cell cycle of the fission yeast *Schizosaccharomyces pombe*
- 287 Aplin, J. D. and Foden, L. J. A cell spreading factor, abundant in human placenta, contains fibronectin and fibrinogen
- 303 Loidl, P., Gröbner, P., Csordas, A. and Puschendorf, B. Cell-cycle-dependent effects of sodium-*n*-butyrate in *Physarum polycephalum*
- 313 Risueño, M. C., Medina, F. J. and Moreno Díaz de la Espina, S. Nucleolar fibrillar centres in plant meristematic cells: ultrastructure, cytochemistry and autoradiography
- 331 Rayner, M. J. and Graham, C. F. Clonal analysis of the change in growth phenotype during embryonal carcinoma cell differentiation
- 345 Dave, A. J. and Godward, M. B. E. Ultrastructural studies in the Rhodophyta. I. Development of mitotic spindle poles in *Apoglossum ruscifolium*, Kylin
- 363 Cox, G. S. Discrimination in the uptake of soluble proteins by isolated nuclei
- 385 Omoto, C. K. and Brokaw, C. J. Structure and behaviour of the sperm terminal filament
