

Volume 81

March 1986

Journal of **CELL**
SCIENCE

The Company of Biologists Limited

Journal of Cell Science

INFORMATION FOR CONTRIBUTORS

1 Manuscripts should be sent to The Editors, *Journal of Cell Science*, Department of Zoology, Cambridge CB2 3EJ, England.

2 Manuscripts must be typewritten, in *double spacing throughout (including tables, references and legends)*. Each table should be typed on a separate sheet. Legends to figures should be typed in a single series and placed at the end of the manuscript. Two complete copies of the manuscript should be submitted. Manuscripts must be fully corrected by the author, and a charge will be made for excessive alteration in proof.

3 Author's word-processor disks can in some cases be used for typesetting. If available, please send a copy of the disk plus details of the word processor and program used with your final revised manuscript. Disks will be returned with proofs.

4 A short title of not more than 40 characters, for use as page headings, should be supplied and at least **3 key words** for indexing papers.

5 Manuscripts must contain a **Summary** of not more than 500 words, placed immediately after the title page. This must be intelligible without reference to the main text and contain no references.

6 The list of References must be given in alphabetical order of authors' names. The titles of journals should be abbreviated in accordance with the *World List of Scientific Periodicals*, 4th edn (1963) and *Short Titles of Commonly Cited Scientific Journals*, Royal Society, London (1980). The following style is used:

GRAY, E. G. & WILLIS, R. A. (1968). Problems of electron stereoscopy of biological tissue. *J. Cell Sci.* **3**, 309–326.

MAZIA, D. (1961). Mitosis and physiology of cell division. In *The Cell*, vol. 3 (ed. J. Brachet & A. E. Mirsky), pp. 77–412. New York, London: Academic Press.

Citations in the text are given in the following form: Jones & Smith (1960) or (Jones & Smith, 1960). Where there are more than two authors citations should be in the form (Jones *et al.* 1960). Where more

than one paper by the same author(s) has been published in the same year they are cited as Jones (1960a), Jones (1960b) etc.

7 Footnotes should be avoided wherever possible.

8 SI units should be used throughout in the preparation of manuscripts.

9 Text figures and **photographs** should be numbered in a single series, in the order in which they are referred to in the text. Each individual drawing or photograph should be numbered separately (Fig. 1, Fig. 2 and so on).

10 Text figures should preferably be not more than twice final size; very large drawings should be avoided. Original drawings are needed for reproduction as photographic copies cannot always be used. The maximum printed size of a drawing is 200 mm by 125 mm. Lettering will be inserted by the printers and should be indicated on a tracing-paper overlay or a duplicate copy.

11 Photographs should preferably be submitted the same size as they are to appear. The maximum for a plate is 200 mm by 140 mm. Where several photographs make up a plate they should be mounted accurately on one sheet of cardboard and irregular shapes avoided wherever possible. Lettering on plates will be inserted by the printers and should be indicated either on a duplicate, marked set of prints or on a tracing-paper overlay bearing accurately marked outlines of the objects indicated.

12 Authors should retain a complete set of labelled figures for checking against proofs. The originals will not be returned to authors with proofs.

13 Authors will receive 200 **offprints** free of charge and may order additional copies when proofs are returned.

14 In order to give The Company of Biologists Limited authority to deal with matters of **copyright**, authors will be required to assign to them the copyright of any article published in the journal.
