Scope *Journal of Cell Science* publishes critical work over the full range of cell biology. Papers are called for that deal with all aspects of both prokaryotic and eukaryotic cells, the single most important criterion for acceptance being that they should significantly advance understanding of cell organization. Theoretical papers and occasional reviews are published. Short surveys of topical subjects appear in each issue under the general title *Commentary*.

Publisher The Company of Biologists Limited, founded in 1925, is a non-commercial organization having tax-exempt charitable status. There is a Board of Directors consisting of about 20 professional biologists, who receive no salary or fees for their services. The Company's main function is to own and manage *Development*, *Journal of Cell Science* and *The Journal of Experimental Biology*. It also publishes *BioEssays* for the ICSU Press. Any surplus on publishing not required for the journals' reserves is transferred to an Educational Trust Fund, which makes grants in aid of societies concerned with the fields of interest covered by the Company's journals. Grants are also made to conferences and summer schools in the fields of its journals.

Subscriptions The Journal appears monthly (three volumes, each of four parts, per year). In addition, in 1990 there will be one Supplement (number 13) which is included in the subscription price.
Libraries: USA and Canada \$820; Japan £500; Rest of the World £455, all post free.
Personal: £65 or \$95. These are for private use only and must be paid for by personal cheque or credit card.
Payment by cheque (payable to Biochemical Society) in £ sterling/US\$ or by Access/Visa credit cards. Orders should be sent to: Biochemical Society Book Depot, PO Box 32, Commerce Way, Colchester CO2 8HP, UK or to your usual agent or bookseller. 24-hour ordering by Fax: (0206) 549331 – USA 44 206 549331

Supplements These are listed inside the back cover. They may be purchased separately.

Delivery Copies of the journal for subscribers in the USA and Canada are sent by air to New Jersey for delivery with the minimum delay. Second class postage paid at Rahway, NJ, and at additional mailing offices. Postmaster, send address corrections to: Journal of Cell Science, c/o Mercury Airfreight International Inc., 2323 Randolph Avenue, Avenel, New Jersey 07001, USA.

Cover picture Indirect immunofluorescence microscopy of chicken fibroblasts. The β -subunit of the mitochondrial ATP synthetase, a major novobiocin-binding protein, was detected by anti-yeast β -subunit IgG and TRITC-conjugated secondary IgG, microtubules by anti-chicken tubulin IgG and FITC-conjugated secondary IgG, and the nuclear DNA by DAPI. See the related paper in this issue by J. R. Jenkins, M. J. Pocklington and E. Orr.
