Table S1. Test statistics for the relationship between the proportion of signalling males and the mean of square rooted MCrS rate using a GLM model.

	Estimate	Std. error	t-Value	P
Intercept	−2.223	0.4551	−4.884	<0.0001
MCrS rate	2.6023	0.351	7.413	<0.0001
