Stevens, Fernandez and Martinez del Rio on bird intestinal enzymes	1
Byrne, Buchmann and Spangler on wing loading in insects	9
Moffett and Koch on the transbasal electrochemical gradient	25
Moffett and Koch on transapical electrochemical gradients	39
Baptista, Ramos and de Jesus on lithium currents in frog skin	51
Howard and Ahearn on salt transport in tilapia intestine	65
Titus and Ahearn on acetate transport in tilapia intestine	77
Pitman on insect motoneurone excitability	95
Esch on temperature and flight muscle potentials	109
Milligan and McDonald on lactate kinetics in fish	119
Pickens on burrowing of a sea anemone	133
Nusbaum and Marder on the crab pyloric rhythm	165
Nishi, Gotow and Kobayashi on cell fusion	183
Christensen, Larmer, Shimahara, Beadle and Pichon on cockroach neurones	193
Abisgold and Simpson on locust chemoreceptors	215
Walsh, Mommsen, Moon and Perry on trout hepatocytes	231
Pelster, Kobayashi and Scheid on eel blood	243
Pennycuik, Obrecht and Fuller on bird body drag	253
Obrecht, Pennycuik and Fuller on radio transmitters and bird body drag	265
Rice and Stephens on mussel amino acid uptake	275
Rees and Baguet on glowing photophores	289
Bailey and Driedzic on myoglobin in sea raven hearts	301
Azuma and Azuma on frog visual pigments	317
Arkett, Mackie and Meech on jellyfish mechanoreception	329
Bilbaut, Meech and Hernandez-Nicaise on <i>Beroe</i> smooth muscle	343
Glasheen and Hand on anhydrobiosis in <i>Artemia</i>	363
Pearson and Wolf on locust flight neurones	381
Colebrook and Lukowiak on learning in <i>Aplysia</i>	411
Hainsworth on pelican flight	431
Turner and Butler on the aerobic capacity of duck muscle	445
Butler, Turner, Al-Wassia and Bevan on blood flow in ducks	461
Tuersley and McCrohan on modulation of snail motor output	473
Grubb, Brown and Bentley on ^{86}Rb fluxes in fowl gut	487
Wittekind on the landing response of <i>Drosophila</i>	491
Pass, Sperk, Agricola, Baumann and Penzlin on the cockroach antennal heart	495
Kozacik on an analyser for mixed gases	499
