Volume 200 (17) 1997

**Christie, A. E., Lundquist, C. T., Nässel, D. R.
and Nusbaum, M. P.**

Two novel tachykinin-related peptides from the nervous system of the crab *Cancer borealis* 2279–2294

Jackson, D. C.

Lactate accumulation in the shell of the turtle *Chrysemys picta bellii* during anoxia at 3 °C and 10 °C 2295–2300

**Ahlborn, B., Chapman, S., Stafford, R., Blake,
R. W. and Harper, D. G.**

Experimental simulation of the thrust phases of fast-start swimming of fish 2301–2312

Rogers, S. M. and Simpson, S. J.

Experience-dependent changes in the number of chemosensory sensilla on the mouthparts and antennae of *Locusta migratoria* 2313–2321

**Dawson, J. W., Dawson-Scully, K., Robert, D.
and Robertson, R. M.**

Forewing asymmetries during auditory avoidance in flying locusts 2323–2335

Alsop, D. H. and Wood, C. M.

The interactive effects of feeding and exercise on oxygen consumption, swimming performance and protein usage in juvenile rainbow trout (*Oncorhynchus mykiss*) 2337–2346

Linton, S. M. and Greenaway, P.

Urate deposits in the gecarcinid land crab *Gecarcoidea natalis* are synthesised *de novo* from excess dietary nitrogen 2347–2354

Pennycuick, C. J.

Actual and 'optimum' flight speeds: field data reassessed 2355–2361

**Quinlan, M. C., Tublitz, N. J. and O'Donnell,
M. J.**

Anti-diuresis in the blood-feeding insect *Rhodnius prolixus* Stål: the peptide CAP_{2b} and cyclic GMP inhibit Malpighian tubule fluid secretion 2363–2367

**Fossat, B., Porthé-Nibelle, J., Pedersen, S. and
Lahlou, B.**

Na⁺/H⁺ exchange and osmotic shrinkage in isolated trout hepatocytes 2369–2376
