Volume 204 (24) 2001

In this issue i–ii

Bisch-Knaden, S. and Wehner, R. Egocentric information helps desert ants to navigate around familiar obstacles. 4177–4184

Lancaster, W. C. and Speakman, J. R. Variations in respiratory muscle activity during echolocation when stationary in three species of bat (Microchiroptera: Vespertilionidae). 4185–4197

Fadool, D. A., Wachowiak, M. and Brann, J. H. Patch-clamp analysis of voltage-activated and chemically activated currents in the vomeronasal organ of *Sternotherus odoratus* (stinkpot/musk turtle). 4199–4212

Balint, C. N. and Dickinson, M. H. The correlation between wing kinematics and steering muscle activity in the blowfly *Calliphora vicina*. 4213–4226

Wilson, R. S. Geographic variation in thermal sensitivity of jumping performance in the frog *Limnodynastes peronii*. 4227–4236

Lutz, G. J., Bremner, S. N., Bade, M. J. and Lieber, R. L. Identification of myosin light chains in *Rana pipiens* skeletal muscle and their expression patterns along single fibres. 4237–4248

Thys, T. M., Blank, J. M., Coughlin, D. J. and Schachat, F. Longitudinal variation in muscle protein expression and contraction kinetics of largemouth bass axial muscle. 4249–4257

Steullet, P., Dudar, O., Flavus, T., Zhou, M. and Derby, C. D. Selective ablation of antennular sensilla on the Caribbean spiny lobster *Panulirus argus* suggests that dual antennular chemosensory pathways mediate odorant activation of searching and localization of food. 4259–4269

Wu, B. J., Else, P. L., Storlien, L. H. and Hulbert, A. J. Molecular activity of Na^+/K^+ -ATPase from different sources is related to the packing of membrane lipids. 4271–4280

Kieffer, J. D., Wakefield, A. M. and Litvak, M. K. Juvenile sturgeon exhibit reduced physiological responses to exercise. 4281–4289

Ramón, F., Hernández, O. H. and Bullock, T. H. Event-related potentials in an invertebrate: crayfish emit ‘omitted stimulus potentials’. 4291–4300

Okada, J. and Toh, Y. Peripheral representation of antennal orientation by the scapal hair plate of the cockroach *Periplaneta americana*. 4301–4309

Girard, I., McAleer, M. W., Rhodes, J. S. and Garland, T., Jr. Selection for high voluntary wheel-running increases speed and intermittency in house mice (*Mus domesticus*). 4311–4320

Schmitz, A. and Perry, S. F. Bimodal breathing in jumping spiders: morphometric partitioning of the lungs and tracheae in *Salticus scenicus* (Arachnida, Araneae, Salticidae). 4321–4334

Bagatto, B., Pelster, B. and Burggren, W. W. Growth and metabolism of larval zebrafish: effects of swim training. 4335–4343

Young, B. A. and Zahn, K. Venom flow in rattlesnakes: mechanics and metering. 4345–4351

Fraser, K. P. P., Houlihan, D. F., Lutz, P. L., Leone-Kabler, S., Manuel, L. and Brechin, J. G. Complete suppression of protein synthesis during anoxia with no post-anoxia protein synthesis debt in the red-eared slider turtle *Trachemys scripta elegans*. 4353–4360

Seebacher, F. and Franklin, C. E. Control of heart rate during thermoregulation in the heliothermic lizard *Pogona barbata*: importance of cholinergic and adrenergic mechanisms. 4361–4366

Bury, N. R., Grosell, M., Wood, C. M., Hogstrand, C., Wilson, R. W., Rankin, J. C., Busk, M., Lecklin, T. and Jensen, F. B. Intestinal iron uptake in the European flounder (*Platichthys flesus*) (Erratum). 4367
