Volume 205 (17) 2002

In this issue i–ii

Baker, J. D. and Truman, J. W. Mutations in the *Drosophila* glycoprotein hormone receptor, *rickets*, eliminate neuropeptide-induced tanning and selectively block a stereotyped behavioral program. 2555–2565

White, S. A., Nguyen, T. and Fernald, R. D. Social regulation of gonadotropin-releasing hormone. 2567–2581

Sawai, S., Hirano, T., Maeda, Y. and Sawada, Y. Rapid patterning and zonal differentiation in a two-dimensional *Dictyostelium* cell mass: the role of pH and ammonia. 2583–2590

Tytell, E. D. and Lauder, G. V. The C-start escape response of *Polypterus senegalus*: bilateral muscle activity and variation during stage 1 and 2. 2591–2603

Gardiner, R. B., Ullensvang, K., Danbolt, N. C., Caveney, S. and Donly, B. C. Cellular distribution of a high-affinity glutamate transporter in the nervous system of the cabbage looper *Trichoplusia ni*. 2605–2613

Bullen, R. D. and McKenzie, N. L. Scaling bat wingbeat frequency and amplitude. 2615–2626

Ophir, E., Arieli, Y., Marder, J. and Horowitz, M. Cutaneous blood flow in the pigeon *Columba livia*: its possible relevance to cutaneous water evaporation. 2627–2636

Stabentheiner, A., Kovac, H. and Schmaranzer, S. Honeybee nestmate recognition: the thermal behaviour of guards and their examinees. 2637–2642

Cutler, C. P. and Cramb, G. Branchial expression of an aquaporin 3 (AQP-3) homologue is downregulated in the European eel *Anguilla anguilla* following seawater acclimation. 2643–2651

Lignot, J.-H., Cutler, C. P., Hazon, N. and Cramb, G. Immunolocalisation of aquaporin 3 in the gill and the gastrointestinal tract of the European eel *Anguilla anguilla* (L.). 2653–2663

Zamparo, P., Pendergast, D. R., Termin, B. and Minetti, A. E. How fins affect the economy and efficiency of human swimming. 2665–2676

Chen, D., Zhang, Z., Wheatly, M. G. and Gao, Y. Cloning and characterization of the heart muscle isoform of sarco/endoplasmic reticulum Ca^{2+} ATPase (SERCA) from crayfish. 2677–2686

Payan, P., Borelli, G., Priouzeau, F., De Pontual, H., Bœuf, G. and Mayer-Gostan, N. Otolith growth in trout *Oncorhynchus mykiss*: supply of Ca^{2+} and Sr^{2+} to the saccular endolymph. 2687–2695

Nespolo, R. F., Bacigalupo, L. D., Sabat, P. and Bozinovic, F. Interplay among energy metabolism, organ mass and digestive enzyme activity in the mouse-opossum *Thylamys elegans*: the role of thermal acclimation. 2697–2703

Schnizler, M., Buss, M. and Clauss, W. Effects of extracellular purines on ion transport across the integument of *Hirudo medicinalis*. 2705–2713

Wang, T., Altimiras, J. and Axelsson, M. Intracardiac flow separation in an *in situ* perfused heart from Burmese python *Python molurus*. 2715–2723

Frappell, P., Schultz, T. and Christian, K. Oxygen transfer during aerobic exercise in a varanid lizard *Varanus mertensi* is limited by the circulation. 2725–2736

Sunada, S., Takashima, H., Hattori, T., Yasuda, K. and Kawachi, K. Fluid-dynamic characteristics of a bristled wing. 2737–2744

Bernard, S. F., Fayolle, C., Robin, J.-P. and Groscolas, R. Glycerol and NEFA kinetics in long-term fasting king penguins: phase II *versus* phase III. 2745–2754
