In this issue i–ii

Obituary

Somero, G. A tribute to Peter William Hochachka, OC, PhD, LLD, FRSC. 3767-3768

van Dam, R. P., Ponganis, P. J., Ponganis, K. V., Levenson, D. H. and Marshall, G. Stroke frequencies of emperor penguins diving under sea ice. 3769-3774

Woolley, P. A., Patterson, M. F., Stephenson, G. M. and Stephenson, D. G. The ilio-marsupialis muscle in the dasyurid marsupial *Sminthopsis douglasi*: form, function and fibre-type profiles in females with and without suckling young. 3775-3781

Walker, J. A. Rotational lift: something different or more of the same? 3783-3792

Aubin, T. and Jouventin, P. Localisation of an acoustic signal in a noisy environment: the display call of the king penguin *Aptenodytes patagonicus*. 3793-3798

Cabrero, P., Radford, J. C., Broderick, K. E., Costes, L., Veenstra, J. A., Spana, E. P., Davies, S. A. and Dow, J. A. T. The *Dh* gene of *Drosophila melanogaster* encodes a diuretic peptide that acts through cyclic AMP. 3799-3807

Kuznetsov, S. G., Anton-Erxleben, F. and Bosch, T. C. G. Epithelial interactions in *Hydra*: apoptosis in interspecies grafts is induced by detachment from the extracellular matrix. 3809-3817

Long, J. H., Jr, Koob-Emunds, M., Sinwell, B. and Koob, T. J. The notochord of hagfish *Myxine glutinosa*: visco-elastic properties and mechanical functions during steady swimming. 3819-3831

Biro, D., Guilford, T., Dell'Omo, G. and Lipp, H.-P. How the viewing of familiar landscapes prior to release allows pigeons to home faster: evidence from GPS tracking. 3833-3844

Muheim, R., Bäckman, J. and Åkesson, S. Magnetic compass orientation in European robins is dependent on both wavelength and intensity of light. 3845-3856

Rasmussen, T. H., Andreassen, T. K., Pedersen, S. N., Van der Ven, L. T. M., Bjerregaard, P. and Korsgaard, B. Effects of waterborne exposure of octylphenol and oestrogen on pregnant viviparous eelpout (*Zoarces viviparus*) and her embryos *in ovario*. 3857-3876

Harris, M. A. and Steudel, K. The relationship between maximum jumping performance and hind limb morphology/physiology in domestic cats (*Felis silvestris catus*). 3877-3889

Goldman, J. A. and Patek, S. N. Two sniffing strategies in palinurid lobsters. 3891-3902

Phillips, J. B., Borland, S. C., Freake, M. J., Brassart, J. and Kirschvink, J. L. 'Fixed-axis' magnetic orientation by an amphibian: non-shoreward-directed compass orientation, misdirected homing or positioning a magnetite-based map detector in a consistent alignment relative to the magnetic field? 3903-3914

Cain, P. and Malwal, S. Landmark use and development of navigation behaviour in the weakly electric fish *Gnathonemus petersii* (Mormyridae; Teleostei). 3915-3923

Hart, N. S. Vision in the peafowl (Aves: *Pavo cristatus*). 3925-3935

McMahon, M. E., Boutellier, U., Smith, R. M. and Spengler, C. M. Hyperpnea training attenuates peripheral chemosensitivity and improves cycling endurance. 3937-3943

Parkes, R., Halsey, L. G., Woakes, A. J., Holder, R. L. and Butler, P. J. Oxygen uptake during post dive recovery in a diving bird *Aythya fuligula*: implications for optimal foraging models. 3945-3954

Kristan, D. M. Effects of intestinal nematodes during lactation: consequences for host morphology, physiology and offspring mass. 3955-3965

Kristan, D. M. Maternal and direct effects of the intestinal nematode *Heligmosomoides polygyrus* on offspring growth and susceptibility to infection. 3967-3977

Trailovic, S. M., Robertson, A. P., Clark, C. L. and Martin, R. J. Levamisole receptor phosphorylation: effects of kinase antagonists on membrane potential responses in *Ascaris suum* suggest that CaM kinase and tyrosine kinase regulate sensitivity to levamisole. 3979-3988

Brooks, S., Clark, G. T., Wright, S. M., Trueman, R. J., Postle, A. D., Cossins, A. R. and Maclean, N. M. Electrospray ionisation mass spectrometric analysis of lipid restructuring in the carp (*Cyprinus carpio* L.) during cold acclimation. 3989-3997
