

In this issue i–ii

---

**Fuse, M. and Truman, J. W.** Modulation of ecdysis in the moth *Manduca sexta*: the roles of the suboesophageal and thoracic ganglia. 1047–1058

**Reineke, S., Wieczorek, H. and Merzendorfer, H.** Expression of *Manduca sexta* V-ATPase genes *mvB*, *mvG* and *mvd* is regulated by ecdysteroids. 1059–1067

**Sötz, E., Niederstätter, H. and Pelster, B.** Determinants of intracellular pH in gas gland cells of the swimbladder of the European eel *Anguilla anguilla*. 1069–1075

**Stavenga, D. G.** Reflections on colourful ommatidia of butterfly eyes. 1077–1085

**Sane, S. P. and Dickinson, M. H.** The aerodynamic effects of wing rotation and a revised quasi-steady model of flapping flight. 1087–1096

**Betz, O.** Performance and adaptive value of tarsal morphology in rove beetles of the genus *Stenus* (Coleoptera, Staphylinidae). 1097–1113

**Anderson, W. G., Takei, Y. and Hazon, N.** Osmotic and volaemic effects on drinking rate in elasmobranch fish. 1115–1122

**Olsson, C.** Distribution and effects of PACAP, VIP, nitric oxide and GABA in the gut of the African clawed frog *Xenopus laevis*. 1123–1134

**Michaelidis, B., Loumbourdis, N. S. and Kapaki, E.** Analysis of monoamines, adenosine and GABA in tissues of the land snail *Helix lucorum* and lizard *Agama stellio stellio* during hibernation. 1135–1143

**Wilson, R. S., James, R. S. and Van Damme, R.** Trade-offs between speed and endurance in the frog *Xenopus laevis*: a multi-level approach. 1145–1152

**Langenbuch, M. and Pörtner, H. O.** Changes in metabolic rate and N excretion in the marine invertebrate *Sipunculus nudus* under conditions of environmental hypercapnia: identifying effective acid–base variables. 1153–1160

**Broch, L., Morales, R. D., Sandoval, A. V. and Hedrick, M. S.** Regulation of the respiratory central pattern generator by chloride-dependent inhibition during development in the bullfrog (*Rana catesbeiana*). 1161–1169

**Sangha, S., McComb, C., Scheibenstock, A., Johannes, C. and Lukowiak, K.** The effects of continuous *versus* partial reinforcement schedules on associative learning, memory and extinction in *Lymnaea stagnalis*. 1171–1178

**Grosell, M. and Wood, C. M.** Copper uptake across rainbow trout gills: mechanisms of apical entry. 1179–1188
