Chicks Are Cool About Staying Warm, 2711; **MAPK Signals Salvation**, 2711; **Sensing The Patter Of Tiny Feet**, 2712; **Spiders Get Attached**, 2713

Research Articles

► **Höltje, M. and Hustert, R.** Rapid mechano-sensory pathways code leg impact and elicit very rapid reflexes in insects. 2715-2724

Barclay, C. J., Widén, C. and Mellors, L. J. Initial mechanical efficiency of isolated cardiac muscle. 2725-2732

► **Kesel, A. B., Martin, A. and Seidl, T.** Adhesion measurements on the attachment devices of the jumping spider *Evarcha arcuata*. 2733-2738

Sepulveda, C. A., Dickson, K. A. and Graham, J. B. Swimming performance studies on the eastern Pacific bonito *Sarda chiliensis*, a close relative of the tunas (family Scombridae). I. Energetics. 2739-2748

Dowis, H. J., Sepulveda, C. A., Graham, J. B. and Dickson, K. A. Swimming performance studies on the eastern Pacific bonito *Sarda chiliensis*, a close relative of the tunas (family Scombridae). II. Kinematics. 2749-2758

► **Gaitanaki, C., Konstantina, S., Chrysa, S. and Beis, I.** Oxidative stress stimulates multiple MAPK signalling pathways and phosphorylation of the small HSP27 in the perfused amphibian heart. 2759-2769

Cooper, C. E., Walsberg, G. E. and Withers, P. C. Biophysical properties of the pelt of a diurnal marsupial, the numbat (*Myrmecobius fasciatus*), and its role in thermoregulation. 2771-2777

Folk, D. G. and Bradley, T. J. Evolved patterns and rates of water loss and ion regulation in laboratory-selected populations of *Drosophila melanogaster*. 2779-2786

Qiu, X. and Arikawa, K. Polymorphism of red receptors: sensitivity spectra of proximal photoreceptors in the small white butterfly *Pieris rapae crucivora*. 2787-2793

Ortiz, R. M., Wade, C. E., Ortiz, C. L. and Talamantes, F. Acutely elevated vasopressin increases circulating concentrations of cortisol and aldosterone in fasting northern elephant seal (*Mirounga angustirostris*) pups. 2795-2802

Taylor, G. K. and Thomas, A. L. R. Dynamic flight stability in the desert locust *Schistocerca gregaria*. 2803-2829

Bernal, D., Sepulveda, C., Mathieu-Costello, O. and Graham, J. B. Comparative studies of high performance swimming in sharks. I. Red muscle morphometrics, vascularization and ultrastructure. 2831-2843

Bernal, D., Smith, D., Lopez, G., Weitz, D., Grimminger, T., Dickson, K. and Graham, J. B. Comparative studies of high performance swimming in sharks. II. Metabolic biochemistry of locomotor and myocardial muscle in endothermic and ectothermic sharks. 2845-2857

Irwin, J. T. and Lee, R. E., Jr. Geographic variation in energy storage and physiological responses to freezing in the gray treefrogs *Hyla versicolor* and *H. chrysoscelis*. 2859-2867

Morris, S. and Ahern, M. D. Regulation of urine reprocessing in the maintenance of sodium and water balance in the terrestrial Christmas Island red crab *Gecarcoidea natalis* investigated under field conditions. 2869-2881

► **Ricklefs, R. E. and Williams, J. B.** Metabolic responses of shorebird chicks to cold stress: hysteresis of cooling and warming phases. 2883-2893

Crossley, D. A., II, Hicks, J. W. and Altimiras, J. Ontogeny of baroreflex control in the American alligator *Alligator mississippiensis*. 2895-2902
