of man  
and animals

By R. Vanbreuseghem, M.D.

Translated by J. Wilkinson, Ph.D., F.L.S.

Here is an English translation of the third part of Dr Langeron's famous work *Précis de Mycologie* which was added to by Professor Vanbreuseghem in 1950.

It presents a careful study of the mycoses in alphabetical order; and includes all that is essential (including symptomatology, diagnosis, treatment, recent work, etc.) concerning human and animal mycology.
