

## Growth, Function and Regulation in Bacterial Cells

A. C. R. DEAN *and*  
SIR CYRIL HINSHELWOOD

'...contains much interesting information, some of which tends to be forgotten today, and useful mathematical interpretations of cell growth, colony formation, and other functions...' *Lancet 2 plates, 121 text figures 84s net*

---

## The Biology of Human Adaptability

PAUL T. BAKER *and*  
J. S. WEINER

'...it is excellent and will be of profound value to anyone interested in the study of man's place in Nature...' *Lancet 59 line figures £5 5s net*

---

## The Biology of Viruses

KENNETH M. SMITH

'...a highly readable book which serves as an excellent brief introduction to the subject.'  
*Laboratory Practice 12 plates 12s 6d net*

## Journal of Cell Science

Edited by  
H. G. CALLAN & A. V. GRIMSTONE

Volume 2, Number 2, June 1967

**Macgregor, H. C.** Pattern of incorporation of [<sup>3</sup>H]uridine into RNA of amphibian oocyte nucleoli

**Hay, Elizabeth D. and Gurdon, J. B.** Fine structure of the nucleolus in normal and mutant *Xenopus* embryos

**Gall, J. G.** The light microscope as an optical diffractometer

**Behnke, O. and Forer, A.** Evidence for four classes of microtubules in individual cells

**Watkins, J. F. and Grace, D. M.** Studies on the surface antigens of interspecific mammalian cell heterokaryons

**Malhotra, S. K. and Eakin, R. T.** A study of mitochondrial membranes in relation to elementary particles

**Baker, T. G. and Franchi, L. L.** The fine structure of oogonia and oocytes in human ovaries

**Smith-Sonneborn, Joan and Plaut, W.** Evidence for the presence of DNA in the pellicle of *Paramecium*

**Odhiambo, T. R.** The fine structure and histochemistry of the fat body in the locust, *Schistocerca gregaria*

**Wigglesworth, V. B.** Cytological changes in the fat body of *Rhodnius* during starvation, feeding and oxygen want

**Perry, Margaret M.** Identification of glyco-  
gen in thin sections of amphibian embryos

**Manton, Irene.** Further observations on the fine structure of *Chrysochromulina chiton* with special reference to the haptone-  
ma, 'peculiar' golgi structure and scale production

**Neville, A. C.** Factors affecting the tertiary structure of resilin in locusts

**Grimstone, A. V., Rotheram, Susan and Salt, G.** An electron-microscope study of capsule formation by insect blood cells

50s. (\$8.50) net.

Annual Subscription £8 (\$27.50)

CAMBRIDGE

**CAMBRIDGE UNIVERSITY PRESS**

**Journal of the  
Marine Biological Association of the U.K.**

Volume 47, Number 1, February 1967

**T. E. Thompson** Direct development in a nudibranch, *Cadlina laevis*, with a discussion of developmental processes in Opisthobranchia

**E. D. Wood, F. A. J. Armstrong & F. A. Richards** Determination of nitrate in sea water by cadmium-copper reduction to nitrite

**Welton L. Lee, Barbara M. Gilchrist & R. Phillips Dales** Carotenoid pigments in *Sabella penicillus*

**F. G. T. Holliday & M. Pattie Jones** Some effects of salinity on the developing eggs and larvae of the plaice (*Pleuronectes platessa*)

**J. H. Wickstead** *Branchiostoma lanceolatum* larvae: some experiments on the effect of thiouracil on metamorphosis

**P. Spencer Davies** Physiological ecology of *Patella*. II. Effect of environmental acclimation on the metabolic rate

**J. David George** Cryptic polymorphism in the cirratulid polychaete, *Cirriformia tentaculata*

**A. J. Southward** Recent changes in abundance of intertidal barnacles in south-west England: a possible effect of climatic deterioration

**R. N. Gibson** Experiments on the tidal rhythm of *Blennius pholis*

**E. D. S. Corner & B. S. Newell** On the nutrition and metabolism of zooplankton. IV. The forms of nitrogen excreted by *Calanus*

**R. H. Hedley & J. St J. Wakefield.** Clone culture studies of a new rosalinid foraminifer from Plymouth, England and Wellington, New Zealand

**John D. Fish.** The biology of *Cucumaria elongata* (Echinodermata: Holothuroidea)

**Clyde Manwell, C. M. Ann Baker, P. A. Ashton & E. D. S. Corner** Biochemical differences between *Calanus finmarchicus* and *C. helgolandicus*. Esterases, malate and triose-phosphate dehydrogenases, aldolase, 'peptidases', and other enzymes

**H. Barnes & R. Evens** Studies in the biochemistry of cirripede eggs. III. Changes in the amino-acid composition during development of *Balanus balanoides* and *B. balanus*

**E. J. Denton, J. B. Gilpin-Brown & J. V. Howarth** On the buoyancy of *Spirula spirula*

**D. H. Cushing** The grouping of herring populations

**T. H. J. Gilmour** The defensive adaptations of *Lima hians* (Mollusca, Bivalvia)

**A. D. Boney & E. B. White** Observations on an endozoic red alga

**G. Russell** The genus *Ectocarpus* in Britain. II. The free-living forms

**Abstracts of Memoirs**

£5 (\$16.75) net. Annual Subscription £14 (\$47.00) for three issues

Published for the Marine Biological Association

Orders should be sent to a bookseller or to Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1, England, or Cambridge University Press, American Branch, 32 East 57th Street, New York, N.Y. 10022, U.S.A.

## Progress in Biophysics and Molecular Biology, Volume 17

Edited by J. A. V. Butler, *Chester Beatty Research Unit, and*  
H. Huxley, *University of Cambridge*

This volume continues the series of articles on topics illustrating a wide range of knowledge in the field of biophysics and molecular biology. All the contributors are experts in their field of research and development. They include: J. W. S. Pringle, A. Komer, A. Müller, H. Ursprung, Ru-Chih C. Huang, E. W. Abrahamson, S. E. Ostroy, J. M. Creeth, R. H. Pain, K. V. Shooter and S. V. Perry.  
392 pages    86 illustrations    £6/\$18.50

## Progress in Oceanography, Volume 4

Edited by M. Sears, *Woods Hole Oceanographic Institution,*  
*Woods Hole, Massachusetts*

Contains the proceedings of the VII Congress of the International Association for Quaternary Research, Boulder, Colorado—September 2nd 1965. There are 21 articles providing background to the present movements of the oceans.

352 pages    122 illustrations    £5. 5s./\$16.00

## Biometeorology, Volume 2

Proceedings of the Third International Biometeorological Congress

Edited by S. W. Tromp and W. H. Weihe

The papers presented at this congress cover the entire fields of bioclimatology and biometeorology and examine numerous aspects of the influence of weather and climate on plants, animals and man.

1178 pages    332 illustrations    £12/\$35.00

## Proceedings of the 5th International Seaweed Symposium

Edited by E. Gordon Young and J. L. McLachlan, *National Research Council, Halifax*

*Partial Contents:* E. K. ANDERSON and W. J. NORTH—In-situ studies of spore production and dispersal in the giant kelp, macrocystis; R. M. Z. AZIZ—The life cycle of *acrochartium liagorae* borg; L. H. COLINVAUX—Occurrence and distribution of marine algae on the Bay of Fundy, New Brunswick; E. BOOTH—Some properties of seaweed manures; S. B. CHALLEN and J. C. HEMINGWAY—Growth of higher plants in response to feeding with seaweed extracts; K. CZAPKE—Seaweeds as radioactive indicators of marine environment.

438 pages    103 illustrations    £5/\$15.00

## Toxicology of Radioactive Substances, Volume 3

A. A. Letavet and E. B. Kurlyandskaya, *Institute of Occupational Hygiene and Disease, Moscow*

The experimental results obtained by the radio-toxicology laboratory of the Institute of Occupational Hygiene and Disease, Moscow, during the study of the toxicology of radioactive iron on various tissues, including the heart and brain.

200 pages    80 illustrations    55s./\$9.00

## Animal Toxins

Proceedings of the 1st International Symposium on Animal Toxins

Edited by F. E. Russell and P. R. Saunders

Representing the status of knowledge on animal toxins, this volume reports the most recent studies of the large gathering of scholars attending the symposium. The papers are divided into sections as follows: Marine animals; Arthropods; Snakes and amphibians. A special section dealing with the general biology of venomous and poisonous animals, the venom apparatus and the chemistry, pharmacology problem of poisoning by these animals is also included.

420 pages    211 illustrations    £6/\$18.50
