

INDEX OF AUTHORS

- Ahmed, Nasr el Din.** See MAGID, VOKAC and AHMED
- Albergoni, V.** See PACKARD and ALBERGONI
- Baba, Shoji A. and Hiramoto, Yukio.** A quantitative analysis of ciliary movement by means of high-speed microcinematography 675
- Bailey, W. J.** The mechanics of stridulation in bush crickets (Tettigoniodea, Orthoptera)
- I. The tegminal generator 495
- Bailey W. J. and Broughton, W. B.** The mechanics of stridulation in bush crickets (Tettigoniodea, Orthoptera)
- II. Conditions of resonance in the tegminal generator 507
- Baker, J. F.** See PRESLEY and BAKER
- Banks, J. R.** See GUTHRIE and BANKS
- Bennet-Clark, H. C.** The mechanism and efficiency of sound production in male crickets 619
- Brokaw, C. J.** See MILLER and BROKAW
- Broughton, W. B.** See BAILEY and BROUGHTON
- Bull, J. M.** See MORRIS and BULL
- Callec, J. J.** See PICHON and CALLEC
- Cambi, Jeffrey M.** Yaw-correcting postural changes in locusts 519
- Sensory control of abdomen posture in flying locusts 533
- Carlson, A. D.** See FRIEDMAN and CARLSON
- Collewyn, H.** Oculomotor reactions in the cuttlefish, *Sepia officinalis* 369
- Crompton, D. W. T. and Nesheim, M. C.** Lipid, bile acid, water and dry matter content of the intestinal tract of domestic ducks with reference to the habitat of *Polymorphus minutus* (Acanthocephala) 437
- Dagan, D. and Parnas, I.** Giant fibre and small fibre pathways involved in the evasive response of the cockroach, *Periplaneta americana* 313
- De Talens, A. Fernandez Perez and Ferretti, C. Taddei.** Landing reaction of *Musca domestica* 233
- Ferretti, C. Taddei.** See DE TALENS and FERRETTI
- Foster, Margaret A.** See POTTS, FOSTER and STATHER
- Friedman, K. J. and Carlson, A. D.** The effects of curare in the cockroach
- I. dTC-induced failure of leg contraction 583
- II. Blockage of nerve impulses by dTC 593
- Garey, W. F. and Rahn, H.** Gas tensions in tissues of trout and carp exposed to diurnal changes in oxygen tension of the water 575
- Gettrup, Erik.** Activity in the locust nerve cord in response to wing-nerve stimulation 667
- Gilai, Arieh and Parnas, I.** Neuromuscular physiology of the closer muscles in the pedipalp of the scorpion *Leiurus quinquestriatus* 325
- Gilles-Baillien, M.** Urea and osmoregulation in the diamondback terrapin *Malaclemys centrata centrata* (Latreille) 691
- Götz, Karl Georg.** Fractionation of *Drosophila* populations according to optomotor traits 419
- Grigg, Gordon C.** Water flow through the gills of Port Jackson Sharks 565
- Use of the first gill slits for water intake in a shark 569
- Guthrie, D. M. and Banks, J. R.** Observations on the electrical and mechanical properties of the myotomes of the lancelet (*Branchiostoma lanceolatum*) 401
- Observations on the function and physiological properties of a fast paramyosin muscle—the notochord of Amphioxus (*Branchiostoma lanceolatum*) 125
- Hanson, D.** See SATCHELL, HANSON and JOHANSEN
- Hiramoto, Yukio.** See BABA and HIRAMOTO
- Horn, G. and Wright, M. J.** Characteristics of transmission failure in the squid stellate ganglion: A study of a simple habituating system 217
- Hubschman, Jerry H.** Substrate discrimination in *Pectinatella magnifica* Leidy (Bryozoa) 603
- Hughes, G. M. and Roberts, J. L.** A study of the effect of temperature changes on the respiratory pumps of the rainbow trout 177
- Hughes, Helen P. I.** The spectral sensitivity and absolute threshold of *Onchidoris fusca* (Müller) 609
- Hussain, C. A.** See MAKINGS and HUSSAIN
- Iles, J. F.** See PEARSON and ILES
- Ito, Y., Kuriyama, H. and Tashiro, N.** Effects of divalent cations on spike generation in the longitudinal somatic muscle of the earthworm 79
- Johansen, K.** See SATCHELL, HANSON and JOHANSEN
- Jones, H. D. and Trueman, E. R.** Locomotion of the limpet, *Patella vulgata* L. 201
- Kuriyama, H.** See ITO, KURIYAMA and TASHIRO
- Kutsch, W. and Usherwood, P. N. R.** Studies of the innervation and electrical activity of flight muscles in the locust, *Schistocerca gregaria* 299
- Little, Colin and Ruston, Gary.** A method for determining total carbon dioxide in small volumes of liquid 395

- Loeffler, Clarence A. and Løvtrup, Søren.** Water balance in the salmon egg 291
- Løvtrup, Søren.** See LOEFFLER and LØVTRUP
- McMahon, B. R.** The relative efficiency of gaseous exchange across the lungs and gills of an African lungfish *Protopterus aethiopicus* 1
- Magid, A. M. Abdel, Vokac, Z. and Ahmed, Nasr el Din.** Respiratory function of the swim-bladders of the primitive fish *Polypterus senegalus* 27
- Makings, P. and Hussain, C. A.** The orientation of locusts to a lamp after unilateral injury 447
- Mark, R. F.** See TRAILL and MARK
- Mill, P. J.** Neural patterns associated with ventilatory movements in dragonfly larvae 177
- Miller, R. L. and Brokaw, C. J.** Chemotactic turning behaviour of *Tubularia* spermatozoa 699
- Morris, R. and Bull, J. M.** Studies on freshwater osmoregulation in the ammocoete larva of *Lampetra planeri* (Bloch). III. The effect of external and internal sodium concentration on sodium transport 275
- Mulloney, Brian.** Impulse patterns in the flight motor neurones of *Bombus californicus* and *Oncopeltus fasciatus* 59
- Nesheim, M. C.** See CROMPTON and NESHEIM
- Noble-Nesbitt, J.** Water balance in the firebrat, *Thermobia domestica* (Packard) 193
- Packard, A. and Albergoni, V.** Relative growth, nucleic acid content and cell numbers of the brain in *Octopus vulgaris* (Lamarck). 539
- Parnas, I.** See DAGAN and PARNAS
— See GILAI and PARNAS
- Parrott, G. Christian.** See TUCKER and PARROTT
- Pearson, K. G. and Iles, J. F.** Discharge patterns of coxal levator and depressor motoneurones of the cockroach, *Periplaneta americana* 139
- Pichon, Y. and Callec, J. J.** Further studies on synaptic transmission in insects. I. External recording of synaptic potentials in a single giant axon of the cockroach, *Periplaneta americana* L. 257
- Pilcher, Diana E. M.** Hormonal control of the Malpighian tubules of the stick insect, *Carausius morosus* 653
- Potts, W. T. W., Foster, Margaret A. and Stather, J. W.** Salt and water balance in salmon smolts 553
- Presley, R. and Baker, P. F.** Kinetics of fertilization in the sea urchin: A comparison of methods 455
- Rahn H.** See GAREY and RAHN
- Rijke, A. M.** Wettability and phylogenetic development of feather structure in water birds 469
- Roberts, J. L.** See HUGHES and ROBERTS
- Roth, Anton and Szabo, Thomas.** Qualitative analysis of the effect of thermal stimuli on the spontaneous activity of tuberosus (*Knollen-*) organs in *Gnathonemus* sp., Mormyridae, Pisces 707
- Runion, H. I.** See USHERWOOD and RUNION
- Ruston, Gary.** See LITTLE and RUSTON
- Satchell, G. H., Hanson, D. and Johansen, K.** Differential blood flow through the afferent branchial arteries of the skate, *Raja rhina* 721
- Schweizer, Gerhild.** See WIESER and SCHWEIZER
- Simons, J. R.** The direction of the thrust produced by the heterocercal tails of two dissimilar elasmobranchs: the Port Jackson shark, *Heterodontus portusjacksoni* (Meyer), and the piked dogfish, *Squalus megalops* (Macleay) 95
- Skidmore, J. F.** Respiration and osmoregulation in rainbow trout with gills damaged by zinc sulphate 481
- Stather, J. W.** See POTTS, FOSTER and STATHER
- Szabo, Thomas.** See ROTH and SZABO
- Tashiro, N.** See ITO, KURIYAMA and TASHIRO
- Trail, A. B. and Mark, R. F.** Optic and static contributions to ocular counter-rotation in carp 109
- Trueman, E. R.** See JONES and TRUEMAN
- Tucker, Vance A. and Parrott, G. Christian.** Aerodynamics of gliding flight in a falcon and other birds 345
- Usherwood, P. N. R.** See KUTSCH and USHERWOOD
- Usherwood, P. N. R. and Runion, H. I.** Analysis of the mechanical responses of metathoracic extensor tibiae muscles of free-walking locusts 39
- Vokac, Z.** See MAGID, VOKAC and AHMED
- Wieser, Wolfgang and Schweizer, Gerhild.** A re-examination of the excretion of nitrogen by terrestrial isopods 267
- Wood, James.** A study of the instantaneous air velocities in a plane behind the wings of certain diptera flying in a wind tunnel 17
- Wright, M. J.** See HORN and WRIGHT
- Young, J. Z.** Short and long memories in *Octopus* and the influence of the vertical lobe system 385

INDEX OF SUBJECTS

- Abdomen posture:**
Sensory control of, in flying locusts (CAMHI) 533
- Absolute threshold:**
The spectral sensitivity and, of *Onchidoris fusca* (Müller) (HUGHES) 609
- Aerodynamics:**
Of gliding flight in a falcon and other birds (TUCKER and PARROTT) 345
- African lungfish:**
See Protopterus aethiopicus
- Air velocities:**
A study of the instantaneous, in a plane behind the wings of certain diptera flying in a wind tunnel (WOOD) 17
- Ammocoete larva:**
Studies on fresh-water osmoregulation in the, of *Lampetra planeri* (BLOCH)
— III. The effect of external and internal sodium concentration on sodium transport (MORRIS and BULL) 275
- Amphioxus:**
See Branchiostoma lanceolatum
- Bombus californicus*:**
Impulse patterns in the flight motor neurones of, and *Oncopeltus fasciatus* (MULLONEY) 59
- Brain:**
Relative growth, nucleic acid content and cell numbers of the, in *Octopus vulgaris* (LAMARCK) (PACKARD and ALBERGONI) 539
- Branchial arteries:**
Differential blood flow through the afferent, of the skate, *Raja rhina* (SACHELL, HANSON and JOHANSEN) 721
- Branchiostoma lanceolatum*:**
Observations on the function and physiological properties of a fast paramyosin muscle—the notochord of Amphioxus (GUTHRIE and BANKS) 125
— Observations on the electrical and mechanical properties of the myotomes of the lancelet (GUTHRIE and BANKS) 401
- Bush crickets (Tettigonioidae, Orthoptera):**
The mechanics of stridulation in
— I. The tegminal generator (BAILEY) 495
— II. Conditions for resonance in the tegminal generator (BAILEY and BROUGHTON) 507
- Carausius morosus*:**
Hormonal control of the Malpighian tubules of the stick insect (PILCHER) 653
- Carbon dioxide:**
A method for determining total, in small volumes of liquid (LITTLE and RUSTON) 395
- Carp:**
Optic and static contributions to ocular counter-rotation in (TRAILL and MARK) 109
- Cell numbers:**
Relative growth, nucleic acid content and, of the brain in *Octopus vulgaris* (LAMARCK) (PACKARD and ALBERGONI) 539
- Chemotactic turning behaviour:**
Of *Tubularia* spermatozoa (MILLER and BROKAW) 699
- Ciliary movement:**
A quantitative analysis of, by means of high-speed microcinematography (BABA and HIRAMOTO) 675
- Closer muscles:**
Neuromuscular physiology of the, in the pedipalp of the scorpion *Leiurus quinquestratus* (GILAI and PARNAS) 325
- Cockroach:**
The effects of curare in the
— I. dTC-induced failure of leg contraction (FRIEDMAN and CARLSON) 583
— II. Blockage of nerve impulses by dTC (FRIEDMAN and CARLSON) 593
— *See Periplaneta americana*
- Curare:**
The effects of, in the cockroach
— I. dTC-induced failure of leg contraction (FRIEDMAN and CARLSON) 583
— II. Blockage of nerve impulses by dTC (FRIEDMAN and CARLSON) 593
- Cuttlefish:**
See Sepia officinalis
- Diamondback terrapin:**
See Malaclemys centrata centrata (LATREILLE)
- Differential blood flow:**
Through the afferent branchial arteries of the skate, *Raja rhina* (SACHELL, HANSON and JOHANSEN) 721
- Diptera:**
A study of the instantaneous air velocities in a plane behind the wings of certain, flying in a wind tunnel (WOOD) 17
- Discharge patterns:**
Of coxal levator and depressor motoneurones of the cockroach, *Periplaneta americana* (PEARSON and ILES) 139
- Diurnal changes in oxygen tension:**
Gas tensions in tissues of trout and carp exposed to, of the water (GAREY and RAHN) 575
- Divalent cations:**
Effects of, on spike generation in the longitudinal somatic muscle of the earthworm (ITO, KURIYAMA and TASHIRO) 79
- Domestic ducks:**
Lipid, bile acid, water and dry matter content of the intestinal tract of, with reference to the habitat of *Polymorphus minutus* (Acanthocephala) (CROMPTON and NESHBIM) 437

- Dragonfly larvae:**
Neural patterns associated with ventilatory movements in (MILL) 167
- Drosophila populations:**
Fractionation of, according to optomotor traits (GÖTZ) 419
- Earthworm:**
Effects of divalent cations on spike generation in the longitudinal somatic muscle of the (ITO, KURIYAMA and TASHIRO) 79
- Elasmobranchs:**
See *Heterodontus portusjacksoni* (Meyer) and *Squalus megalops* (Macleay)
- Electrical activity:**
Studies of the innervation and, of flight muscles in the locust, *Schistocerca gregaria* (KUTSCH and USHERWOOD) 299
- Electrical and mechanical properties:**
Observations on the, of the myotomes of the lancelet (*Branchiostoma lanceolatum*) (GUTHRIE and BANKS) 401
- Evasive response:**
Giant fibre and small fibre pathways involved in the, of the cockroach, *Periplaneta americana* (DAGAN and PARNAS) 313
- Excretion of nitrogen:**
A re-examination of the, by terrestrial isopods (WIESER and SCHWEIZER) 267
- Falcon:**
Aerodynamics of gliding flight in a, and other birds (TUCKER and PARROTT) 345
- Fast paramyosin muscle:**
Observations on the function and physiological properties of a, — the notochord of Amphioxus (*Branchiostoma lanceolatum*) (GUTHRIE and BANKS) 125
- Feather structure:**
Wettability and phylogenetic development of, in water birds (RIJKE) 469
- Fertilization:**
Kinetics of, in the sea urchin: A comparison of methods (PRESLEY and BAKER) 455
- Firebrat:**
See *Thermobia domestica* (Packard)
- First gill slits:**
Use of the, for water intake in a shark (GRIGG) 569
- Flight muscles:**
Studies of the innervation and electrical activity of, in the locust, *Schistocerca gregaria* (KUTSCH and USHERWOOD) 299
- Fractionation**
Of *Drosophila* populations according to optomotor traits (GÖTZ) 419
- Fresh-water osmoregulation:**
Studies on, in the ammocoete larva of *Lam-petra planeri* (Bloch)
— III. The effect of external and internal sodium concentration on sodium transport (MORRIS and BULL) 275
- Gas tensions:**
In tissues of trout and carp exposed to di-urnal changes in oxygen tension of the water (GAREY and RAHN) 575
- Gaseous exchange:**
The relative efficiency of, across the lungs and gills of an African lungfish *Protopterus aethiopicus* (MCMAHON) 1
- Giant fibre and small fibre pathways:**
Involved in the evasive response of the cockroach, *Periplaneta americana* (DAGAN and PARNAS) 313
- Gills:**
The relative efficiency of gaseous exchange across the lungs and, of an African lungfish *Protopterus aethiopicus* (MCMAHON) 1
— Water flow through the, of Port Jackson sharks (GRIGG) 565
- Gliding flight:**
Aerodynamics of, in a falcon and other birds (TUCKER and PARROTT) 345
- Gnathonemus sp., Mormyridae, Pisces:**
Qualitative analysis of the effect of thermal stimuli on the spontaneous activity of tuberous (*Knollen-*) organs in (ROTH and SZAO) 707
- Habituating system:**
Characteristics of transmission failure in the squid stellate ganglion. A study of a (HORN and WRIGHT) 217
- Heterocercal tails:**
The direction of the thrust produced by the, of two dissimilar Elasmobranchs: the Port Jackson shark, *Heterodontus portusjacksoni* (Meyer), and the piked dogfish, *Squalus megalops* (Macleay) (SIMONS) 95
- Heterodontus portusjacksoni (Meyer):**
The direction of the thrust produced by the heterocercal tails of two dissimilar elasmobranchs: the Port Jackson shark, and the piked dogfish, *Squalus megalops* (Macleay) (SIMONS) 95
- High-speed microcinematography:**
A quantitative analysis of ciliary movement by means of (BABA and HIRAMOTO) 675
- Hormonal control:**
Of the Malpighian tubules of the stick insect, *Carausius morosus* (PILCHER) 653
- Impulse patterns:**
In the flight motor neurones of *Bombus californicus* and *Oncopeltus fasciatus* (MULLONEY) 59
- Innervation:**
Studies of the, and electrical activity of flight muscles in the locust, *Schistocerca gregaria* (KUTSCH and USHERWOOD) 299
- Insects:**
Further studies on synaptic transmission in — I. External recording of synaptic potentials in a single giant axon of the cockroach, *Periplaneta americana* (PICHON and CALLEC) 257
- Intestinal tract:**
Lipid, bile acid, water and dry matter content of the, of domestic ducks with reference to the habitat of *Polymorphus minutus* (Acanthocephala) (CROMPTON and NESHEIM) 437

Isopods:

A re-examination of the excretion of nitrogen by terrestrial (WIESER and SCHWEIZER) 267

Kinetics:

Of fertilization in the sea urchin: A comparison of methods (PRESLEY and BAKER) 455

***Lampetra planeri* (Bloch):**

Studies on fresh-water osmoregulation in the ammocoete larva of

— III. The effect of external and internal sodium concentration on sodium transport (MORRIS and BULL) 275

Lancelet:

See *Branchiostoma lanceolatum*

Landing reaction:

Of *Musca domestica* (DE TALENS and FERRETTI) 233

***Leiurus quinquestriatus*:**

Neuromuscular physiology of the closer muscles in the pedipalp of the scorpion (GILAI and PARNAS) 325

Limpet:

See *Patella vulgata* L.

Locomotion:

Of the limpet, *Patella vulgata* L. JONES and TRUEMAN) 201

Locust:

See *Schistocerca gregaria*

Locust nerve cord:

Activity in the, in response to wing-nerve stimulation (GETTRUP) 667

Locusts:

Analysis of the mechanical responses of metathoracic extensor tibiae muscles of free-walking (USHERWOOD and RUNION) 39

— The orientation of, to a lamp after unilateral injury (MAKINGS and HUSSAIN) 447

— Yaw-correcting postural changes in (CAMHI) 519

— Sensory control of abdomen posture in flying (CAMHI) 533

Longitudinal somatic muscle:

Effects of divalent cations on spike generation in the, of the earthworm (ITO, KURIYAMA and TASHIRO) 79

Lungs:

The relative efficiency of gaseous exchange across the, and gills of an African lungfish *Protopterus aethiopicus* (MCMAHON) 1

***Malaclemys centrata centrata* (Latreille):**

Urea and osmoregulation in the diamondback terrapin (GILLES-BAILLIEN) 691

Malpighian tubules:

Hormonal control of the, of the stick insect, *Carausius morosus* (PILCHER) 653

Mechanical responses:

Analysis of the, of metathoracic extensor tibiae muscles of free-walking locusts (USHERWOOD and RUNION) 39

Metathoracic extensor tibiae muscles:

Analysis of the mechanical responses of, of free-walking locusts (USHERWOOD and RUNION) 39

Mole crickets:

The mechanism and efficiency of sound production in (BENNET-CLARK) 619

Motoneurons:

Discharge patterns of coxal levator and depressor, of the cockroach, *Periplaneta americana* (PEARSON and ILES) 139

Motor neurones:

Impulse patterns in the flight of, *Bombus californicus* and *Oncopeltus fasciatus* (MULLONEY) 59

***Musca domestica*:**

Landing reaction of (DE TALENS and FERRETTI) 233

Myotomes:

Observations on the electrical and mechanical properties of the, of the lancelet (*Branchiostoma lanceolatum*) (GUTHRIE and BANKS) 401

Neural patterns:

Associated with ventilatory movements in dragonfly larvae (MILL) 167

Neuromuscular physiology:

Of the closer muscles the pedipalp of the scorpion *Leiurus quinquestriatus* (GILAI and PARNAS) 325

Notochord:

Observations on the function and physiological properties of a fast paramyosin muscle—the, of *Amphioxus (Branchiostoma lanceolatum)* (GUTHRIE and BANKS) 125

Nucleic acid content:

Relative growth, and cell numbers of the brain in *Octopus vulgaris* (Lamarck) (PACKARD and ALBERGONI) 539

Octopus:

Short and long memories in, and the influence of the vertical lobe system (YOUNG) 385

***Octopus vulgaris* (Lamarck):**

Relative growth, nucleic acid content and cell numbers of the brain in (PACKARD and ALBERGONI) 539

Ocular counter-rotation:

Optic and static contributions to, in carp (TRAILL and MARK) 109

Osculomotor reactions:

In the cuttlefish, *Sepia officinalis* (COLLEWIJN) 369

***Onchidorus fusca* (Müller):**

The spectral sensitivity and absolute threshold of (HUGHES) 609

***Oncopeltus fasciatus*:**

Impulse patterns in the flight motor neurones of *Bombus californicus* and (MULLONEY) 59

Optic and static contributions:

To ocular counter-rotation in carp (TRAILL and MARK) 109

Optomotor traits:

Fractionation of *Drosophila* populations according to (GÖTZ) 419

Orientation:

The, of locusts to a lamp after unilateral injury (MAKINGS and HUSSAIN) 447

Osmoregulation:

- Respiration and, in rainbow trout with gills damaged by zinc sulphate (SKIDMORE) 481
 — Urea and, in the diamondback terrapin *Malaclemys centrata centrata* (Latreille) (GILLES-BAILLIEN) 691

***Patella vulgata* (L.):**

- Locomotion of the limpet (JONES and TRUEMAN) 201

***Pectinatella magnifica* Leidy (Bryozoa):**

- Substrate discrimination in (HUBSCHMAN) 603

Pedipalp:

- Neuromuscular physiology of the closer muscles in the, of the Scorpion *Leiurus quinquestriatus* (GILAI and PARNAS) 325

***Pepiplaneta americana*:**

- Discharge patterns of coxal levator and depressor motoneurons of the cockroach (PEARSON and ILES) 139
 — Giant fibre and small fibre pathways involved in the evasive response of the cockroach (DAGAN and PARNAS) 313

Phylogenetic development:

- Wettability and, of feather structure in water birds (RIJKE) 469

Piked dogfish:

- See *Squalus megalops* (Macleay)

***Polymorphus minutus* (Acanthocephala):**

- Lipid, bile acid, water and dry matter content of the intestinal tract of domestic ducks with reference to the habitat of (CROMPTON and NESHEIM) 437

***Polypterus senegalus*:**

- Respiratory function of the swim-bladders of the primitive fish (ABDEL MAGID, VOKAC and EL DIN AHMED) 27

Port Jackson sharks:

- Water flow through the gills of (GRIGG) 565
 — See *Heterodontus portusjacksoni* (Meyer)

Primitive fish:

- See *Polypterus senegalus*

***Protopterus aethiopicus*:**

- The relative efficiency of gaseous exchange across the lungs and gills of an African lungfish (MCMAHON) 1

Rainbow trout:

- A study of the effect of temperature changes on the respiratory pumps of the (HUGHES and ROBERTS) 177
 — Respiration and osmoregulation in, with gills damaged by zinc sulphate (SKIDMORE) 481

***Raja rhina*:**

- Differential blood flow through the afferent branchial arteries of the skate (SATCHELL, HANSON and JOHANSEN) 721

Relative growth:

- , nucleic acid content and cell numbers of the brain in *Octopus vulgaris* (Lamarck) (PACKARD and ALBERGONI) 539

Respiration:

- And osmoregulation in rainbow trout with gills damaged by zinc sulphate (SKIDMORE) 481

Respiratory function:

- Of the swim-bladders of the primitive fish *Polypterus senegalus* (MAGID, VOKAC and AHMED) 27

Respiratory pumps:

- A study of the effect of temperature changes on the, of the rainbow trout (HUGHES and ROBERTS) 177

Salmon egg:

- Water balance in the (LOEFFLER and LØVTRUP) 291

Salmon smolts:

- Salt and water balance in (POTTS, FOSTER and STATHER) 553

Salt and water balance:

- In salmon smolts (POTTS, FOSTER and STATHER) 553

***Schistocerca gregaria*:**

- Studies of the innervation and electrical activity of flight muscles in the locust (KUTSCH and USHERWOOD) 299

Scorpion:

- See *Leiurus quinquestriatus*

Sea urchin:

- Kinetics of fertilization in the, : A comparison of methods (PRESLEY and BAKER) 455

Sensory control:

- Of abdomen posture in flying locusts (CAMHI) 533

***Septia officinalis*:**

- Oculomotor reactions in the cuttlefish (COLLEWIJN) 369

Shark:

- Use of the first gill slits for water intake in a (GRIGG) 569

Short and long memories:

- In *Octopus* and the influence of the vertical lobe system (YOUNG) 385

Skate:

- See *Raja rhina*

Sound production:

- The mechanism and efficiency of, in mole crickets (BENNET-CLARK) 619

Spectral sensitivity:

- The, and absolute threshold of *Onchidoris fusca* (Müller) (HUGHES) 609

Spermatozoa:

- Chemotactic turning behaviour of *Tubularia* (MILLER and BROKAW) 699

Spike generation:

- Effects of divalent cations on, in the longitudinal somatic muscle of the earthworm (ITO, KURIYAMA and TASHIRO)

***Squalus megalops* (Macleay):**

- The direction of the thrust produced by the heterocercal tails of two dissimilar elasmobranchs: the Port Jackson shark, *Heterodontus portusjacksoni* (Meyer), and the piked dogfish (SIMONS) 95

Squid stellate ganglion:

- Characteristics of transmission failure in the, : A study of a simple habituating system (HORN and WRIGHT) 217

- Stick insect:**
 See *Carausius morosus*
- Stridulation:**
 The mechanics of, in bush crickets (Tetti-
 goniodea, Orthoptera)
 — I. The tegminal generator (BAILEY) 495
 — II. Conditions for resonance in the tegminal
 generator (BAILEY and BROUGHTON) 507
- Substrate discrimination:**
 In *Pectinatella magnifica* Leidy (Bryozoa)
 (HUBSCHMAN) 603
- Swim-bladders:**
 Respiratory function of the, of the primitive
 fish *Polypterus senegalus* (MAGID, VOKAC and
 AHMED) 27
- Synaptic transmission:**
 Further studies on, in insects
 — I. External recording of synaptic potentials in
 a single giant axon of the cockroach, *Peri-
 planeta americana* L. (PICHON and CALLEC)
 257
- Temperature changes:**
 A study of the effect of, on the respiratory
 pumps of the rainbow trout (HUGHES and
 ROBERTS) 177
- Thermal stimuli:**
 Qualitative analysis of the effect of, on the
 spontaneous activity of tuberous (*Knollen-*)
 organs in *Gnathonemus* sp., Mormyridae,
 Pisces (ROTH and SZABO) 707
- Thermobia domestica* (Packard)**
 Water balance in the firebrat (NOBLE-
 NESBITT) 193
- Thrust:**
 The direction of the, produced by the
 heterocercal tails of two dissimilar elasmobranchs:
 the Port Jackson shark, *Heterodontus portusjacksoni*
 (Meyer), and the piked dogfish, *Squalus megalops*
 (Macleay) (SIMONS) 95
- Tissues of trout and carp:**
 Gas tensions in, exposed to diurnal changes
 in oxygen tension of the water (GAREY and
 RAHN) 575
- Transmission failure:**
 Characteristics of, in the squid stellate gang-
 lion: A study of a simple habituating system
 (HORN and WRIGHT) 217
- Tuberous (*Knollen-*) organs:**
 Qualitative analysis of the effect of thermal
 stimuli on the spontaneous activity of, in
Gnathonemus sp., Mormyridae, Pisces (ROTH
 and SZABO) 707
- Tubularia:**
 Chemotactic turning behaviour of, spermato-
 zoa (MILLER and BROKAW) 699
- Unilateral injury:**
 The orientation of locusts to a lamp after
 (MAKINGS and HUSSAIN) 447
- Ventilatory movements:**
 Neural patterns associated with, in dragonfly
 larvae (MILL) 167
- Vertical lobe system:**
 Short and long memories in *Octopus* and the
 influence of the (YOUNG) 385
- Volumes of liquid:**
 A method for determining total Carbon di-
 oxide in small (LITTLE and RUSTON) 395
- Water balance:**

**BIOLOGICAL
REVIEWS
OF THE
CAMBRIDGE
PHILOSOPHICAL
SOCIETY**

**Edited by
E. N. Willner FRS**

Each of the three or four articles in an issue of *Biological Reviews* discusses current progress and problems in a particular area of research. The writers integrate different approaches to a problem, and draw attention to gaps in knowledge. Articles have extensive bibliographies, and cover every aspect of biological research.

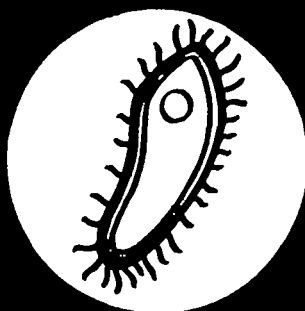

52s. (US \$8) each. Annual subscription for a volume of four parts £8 (US \$26.50)

**CAMBRIDGE UNIVERSITY
PRESS**

200 Euston Road, London N.W. 1

*May we present
an interesting Polish periodical
entitled*

**FOLIA
HISTOCHEMICA
ET
CYTOCHEMICA**

Each number contains works from the "academic" field of histochemistry and cytochemistry and works concerning the practical application of these branches in biology, botany, cytology, embryology, histology, pathology, oncology, zoology. Articles appear in English, with extracts in Russian and English. Publication is quarterly. Annual subscription £5.0.0.

Subscription orders are received by local foreign press distributors or Ruch Export and Import Enterprise, Warszawa 1, P.O. Box 154, Wronia 23, Poland.

Subscriptions may be paid into the account of Ruch Export and Import Enterprise—Warszawa, at the Bank Handlowy in Warszawa.

CONTENTS

No. 1. FEBRUARY 1970

	PAGE
MCMAHON, B. R. The relative efficiency of gaseous exchange across the lungs and gills of an African lungfish <i>Protopterus aethiopicus</i>	I
WOOD, JAMES. A study of the instantaneous air velocities in a plane behind the wings of certain Diptera flying in a wind tunnel.	17
MAGID, A. M., ABDEL, VOKAC, Z. and AHMED, NASR EL DIN. Respiratory function of the swim-bladders of the primitive fish <i>Polypterus senegalus</i>	27
USHERWOOD, P. N. R. and RUNION, H. I. Analysis of the mechanical responses of meta-thoracic extensor tibiae muscles of free-walking locusts	39
MULLONEY, BRIAN. Impulse patterns in the flight motor neurones of <i>Bombus californicus</i> and <i>Oncopeltus fasciatus</i>	59
ITO, Y., KURIYAMA, H. and TASHIRO, N. Effects of divalent cations on spike generation in the longitudinal somatic muscle of the earthworm.	79
SIMONS, J. R. The direction of the thrust produced by the heterocercal tails of two dissimilar elasmobranchs; the Port Jackson shark, <i>Heterodontus portusjacksoni</i> (Meyer), and the piked dogfish, <i>Squalus megalops</i> (Macleay)	95
TRAILL, A. B. and MARK, R. F. Optic and static contributions to ocular counter-rotation in carp	109
GUTHRIE, D. M. and BANKS, J. R. Observations on the function and physiological properties of a fast paramyosin muscle—the notochord of amphixus (<i>Branchiostoma lanceolatum</i>)	125
PEARSON, K. G. and ILES, J. F. Discharge patterns of coxal levator and depressor motoneurones of the cockroach, <i>Periplaneta americana</i>	139
MILL, P. J. Neural patterns associated with ventilatory movements in dragonfly larvae	167
HUGHES, G. M. and ROBERTS, J. L. A study of the effect of temperature changes on the respiratory pumps of the rainbow trout	177
NOBLE-NESBITT, J. Water balance in the firebrat, <i>Thermobia domestica</i> (Packard)	193
JONES, H. D. and TRUEMAN, E. R. Locomotion of the limpet, <i>Patella vulgata</i> L.	201
HORN, G. and WRIGHT, M. J. Characteristics of transmission failure in the squid stellate ganglion: a study of a simple habituating system	217

No. 2. APRIL 1970

DE TALENS, A. FERNANDEZ PEREZ and FERRETTI, C. TADDEI. Landing reaction of <i>Musca domestica</i> . Dependence on dimensions and position of the stimulus	233
PICHON, Y. and CALLEC, J. J. Further studies on synaptic transmission in insects. I. External recording of synaptic potentials in a single giant axon of the cockroach, <i>Periplaneta americana</i> L.	257

	PAGE
WIESER, WOLFGANG and SCHWEIZER, GERHILD. A re-examination of the excretion of nitrogen by terrestrial isopods	267
MORRIS, R. and BULL, J. M. Studies on fresh-water osmoregulation in the ammocoete larva of <i>Lampetra planeri</i> (Bloch). III. The effect of external and internal sodium concentration on sodium transport	275
LOEFFLER, CLARENCE A. and LOVTRUP, SOREN. Water balance in the salmon egg	291
KUTSCH, W. and USHERWOOD, P. N. R. Studies of the innervation and electrical activity of flight muscles in the locust, <i>Schistocerca gregaria</i>	299
DAGAN, D. and PARNAS, I. Giant fibre and small fibre pathways involved in the evasive response of the cockroach, <i>Periplaneta americana</i>	313
GILAI, ARIEH and PARNAS, I. Neuromuscular physiology of the closer muscles in the pedipalp of the scorpion <i>Leiurus quinquestriatus</i>	325
TUCKER, VANCE A. and PARROTT, G. CHRISTIAN. Aerodynamics of gliding flight in a Falcon and other birds	345
COLLEWIJN, H. Oculomotor reactions in the cuttlefish, <i>Sepia officinalis</i>	369
YOUNG, J. Z. Short and long memories in <i>Octopus</i> and the influence of the vertical lobe system	385
LITTLE, COLIN and RUSTON, GARY. A method for determining total carbon dioxide in small volumes of liquid	395
GUTHRIE, D. M. and BANKS, J. R. Observations on the electrical and mechanical properties of the myotomes of the lancelet (<i>Branchiostoma Lanceolatum</i>).	401
GÖTZ, KARL GEORG. Fractionation of <i>Drosophila</i> populations according to optomotor traits	419
CROMPTON, D. W. T. and NESHEIM, M. C. Lipid, bile acid, water and dry matter content of the intestinal tract of domestic ducks with reference to the habitat of <i>Polymorphus minutus</i> (<i>Acanthocephala</i>)	437
MAKINGS, P. and HUSSAIN, C. A. The orientation of locusts to a lamp after unilateral injury	447
PRESLEY, R. and BAKER, P. F. Kinetics of fertilization in the sea urchin: a comparison of methods	455
RIJKE, A. M. Wettability and phylogenetic development of feather structure in water birds	469
SKIDMORE, J. F. Respiration and osmoregulation in rainbow trout with gill damaged by zinc sulphate	481

No. 3. JUNE 1970

BAILEY, W. J. The mechanics of stridulation in bush crickets (<i>Tettigoniodea</i> , orthoptera). I. The tegminal generator	495
BAILEY, W. J. and BROUGHTON, W. B. The mechanics of stridulation in bush crickets (<i>Tettigoniodea</i> , orthoptera). II. Conditions for resonance in the tegminal generator	507

All communications should be addressed to the Editors,

The Journal of Experimental Biology, Zoological Laboratory,
Downing Street, Cambridge, England

MANUSCRIPTS

Authors are requested to present their work in as *concise* a form as possible. MSS. should be *typewritten* (double spacing) on one side only of the paper, and the pages numbered. *Tables* and *Legends* should be on separate sheets from the rest of the MS. and should be numbered. The place where they are to be inserted in the text should be indicated in the *margin* of the MS. *Bibliography* should be given under the heading of 'References' and in the following form: Surname of authors (in alphabetical order), initials, date of publication, title of paper, title of journal (abbreviated according to the *World List of Scientific Periodicals*), volume and pages of references (first and last). In the text a reference should be quoted by the author's name and date (in brackets), and not by the numerical order of the paper in the list of references. Every paper must contain a summary of the chief results of the enquiry.

ILLUSTRATIONS

(i) *Line blocks*. These should be used whenever possible. Illustrations should be pen drawings in Indian ink (*jet black and waterproof*) on smooth white Bristol board, heavy drawing paper or good quality tracing paper. Drawings must not be folded or creased in any way. Where a drawing is labelled, *the label lines should be drawn in black but the lettering should be put in lightly in soft pencil*. Where considerable reduction is required it is essential that the drawings be of such a character as to bear such reduction. *All brush work, tinting or pencil shading is to be avoided*. Mechanical stipple, if too fine, may not stand reduction in size when the block is made.

Charts and curves can often be drawn to best advantage on *graph paper ruled in pale blue*. The blue lines, while ensuring accuracy, are easily eliminated by the printer, only the blackened lines that are desired remaining.

(ii) *Text half-tone blocks*. These are suitable for illustrations involving brushwork, or in which the depth of shading is an essential feature. They can be used for such things as oscillograph records and some photographs can be produced in this way, a good glossy bromide print being required. Illustrations should be gummed on *white card*, grouped and numbered as they are to appear in print. All lettering should be drawn in position on a covering sheet of transparent paper.

(iii) *Plates*. Plates should be used only for illustrations, such as photomicrographs, in which the most accurate reproduction of fine detail is called for. Plates are expensive and the Editors may require an author to defray the cost of plates which in their opinion are not essential. The photographs making up the plate should be gummed on *white card*, grouped and numbered, as they are to appear in print. Exclusive of margin, the plate figures should not cover, when reduced, an area greater than $7\frac{1}{2}$ in. in length \times 5 in. in width when ready for reproduction as a single plate, or $7\frac{1}{2}$ in. \times $11\frac{1}{2}$ in. in the case of double plates. All lettering should be shown in position on a covering sheet of transparent paper. Authors are asked not to submit sheets of illustrations which are more than foolscap size; or, if this cannot be avoided, to include photographic reductions for the convenience of referees.

ABSTRACTS

Authors should submit with their MSS. *five copies* (typewritten, double spacing) of an abstract suitable for biological abstracting journals. The abstract will not appear in *The Journal of Experimental Biology* but will be scrutinised by the Editors before being passed for publication. The summary of a paper may serve as an abstract provided that it conforms to the following requirements. The abstract should outline as briefly as possible the results and the definitive conclusions of the work. Details of methods are generally not required. A paper of average length should be abstracted in about 100 words and the abstract should never exceed 3% of the original. Each copy of the abstract should bear the title of the paper, the name(s) of the author(s) and an address to which applications for offprints may be sent.

PROOFSHEETS AND OFFPRINTS

Authors will receive one set of slip proofs for correction and return to the Editors. A page proof will also be sent if the slip proof is marked by the author 'Revise'. An allowance of ten shillings per sheet of sixteen pages will be made for alteration apart from printer's errors. Authors may be charged for any excess over this average. Authors will receive 50 copies of their papers free; additional copies may be purchased and should be ordered when the proofs are returned to the Editors.

THE SOCIETY FOR EXPERIMENTAL BIOLOGY

The Society holds Conferences four times a year at which the results of experimental investigations are presented and discussed. Enquiries about membership of the Society should be addressed to one of the Secretaries:

Dr B. C. LOUGHMAN, Department of Agriculture,
Parks Road, Oxford

Dr A. P. M. LOCKWOOD, Department of Oceanography,
The University, Southampton
